TAX REDUCTION IS FORECAST

DEATH TOLL FROM TEXAS WORST HEAT WAVE IN YEARS 16

REPORTS THURSDAY INDICATE PEAK HAS BEEN REACHED FOR PRESENT

(By The Associated Press) Texas' death toll from the worst heat wave in two decades jumped to 16 today while reports from nearly all sections indicated the hottest temperatures had been reached and gradual relief would come.

Only Lubbock appeared today for a new record. Thermometers there stood at 103 shortly before noon and were climbing steadily.

Mrs. Kate Weaver, 75, collapsed and died in her Dallas home. At Commerce John M. Kennedy, 52, died after a collapse while unloading a car of lumber.

Dallas authorities reported today the deaths of two negroes Monday which had not been included in former heat totals.

A 51-year old negro man was found dead in a yard at Abilene today.

A negro died in Fort Worth yesterday.

The cooling breezes were reported at Corsicana, Fort Worth, Dallas, Tyler, San Antonio, Palestine, Austin, Wichita Falls and Sherman.

Only slight damage to crops occurred in Navarro county. A definite downward break in the withering temperatures would bring the greatest relief to North and West Texas. The heat wave, worst in 20 years in Texas, yesterday seemed to move out over the vast plains country. At Colorado mercuries rocketed to 114 degrees under a dry, baking sun.

Abilene found slight relief from clouding, which dropped temperatures from 110 to 107 in 45 minutes. The maximum equaled Abilene's all-time high, Lubbock registered 107 degrees, Paris, 104, Amarillo, 103, Texarkana, 108, Dallas, 100, and El Paso, 102.

Added to the death list of Monday and Tuesday were Mrs. G. Miller, 70, Loraine, Ed England, 51.

See HEAT, Page 4.

Oppressive Heat Continues Over Mid-West Areas

CHICAGO, Aug. 13.—(AP)—Oppressive heat, with temperatures well above 100, overspread the Western Plains states and much of the Middle West's corn belt today as weather forecasts held prospects for only light and scattered showers to fight the grip of the drought.

While temperatures above the century mark were predicted throughout Kansas, Missouri and possibly Illinois, the heat wave centered it attack again on Texas, Missouri, Oklahoma and Kansas.

Heat deaths for the week reached 28 in Texas and Oklahoma. Temperatures high as 120 were recorded in Oklahoma yesterday. New heat records of 116 at Concordia and 114 at Wichita, Kas., were established.

TEXAS LIVESTOCK INTERESTS ASK SECRETARY WALLACE PROBE COTTON SEED CAKE INDUSTRY

Man Held Dallas Jail Connection Greenville Fire

DALLAS, Aug. 13.—(AP)—Greenville deputies questioned in the Dallas county jail today a man suspected of arson in the Texas relief commission warehouse fire Aug. 1 when two firemen were killed.

Killed In Courtyard

Harry Howe (above) was shot to death as officers led him from jail to the Dallas, Ga., courthouse to face trial on a charge of murdering his wife. Sheriff J. F. Couch said two brothers of Mrs. Howe, Worth and Pinson Brown, opened fire on the prisoner on the courthouse lawn. (Associated Press Photo)

COUGHLIN ARRIVES FOR CONVENTION OF HIS NATIONAL UNION

TALKATIVE PRIEST EXPLAINS SOME SHARP STATEMENTS AS METAPHORICAL

By W. HOWE SADLER, Associated Press Staff Writer. CLEVELAND, Aug. 13.—(AP)—The Rev. Charles E. Coughlin, arriving today for the first convention of his National Union for Social Justice, settled a disagreement Sunday with the delegates should hear Dr. Francis E. Townsend and explained he intended no specific reference to the individuals in a letter he addressed to the delegates.

He announced Townsend old age pension plan founder, had been invited to address the delegates Saturday afternoon after the conclusion of official convention business. Walter D. Davis, convention marshal, has opposed Townsend's appearing at the meeting. The convention will open tomorrow.

Referring to his open letter to delegates, which appeared in his weekly publication, "Social Justice," Father Coughlin said at a press conference he meant to be "metaphorical."

He wrote the delegates "if one out of 12 apostles were a Judas Iscariot, it is an even bet that one out of 1,200 delegates to the national convention will be a Gomer Smith."

Smith, Oklahoma City lawyer and member of the Townsend pension organization's board of directors, attacked Coughlin at the Tulsa department of Agriculture convention here a month ago. Dr. Townsend immediately sought Smith's removal as a director.

He used the phrase "a Gomer Smith" simply as a metaphorical expression, Father Coughlin said.

COLLAPSE SPANISH REVOLT WITHIN FEW HOURS IS FORECAST

SPANISH SOCIALIST GOVERNMENT REPORTS ADVANCE AGAINST REBELS

By The Associated Press. Collapse of the fascist revolt against Madrid's socialist regime within a few hours was forecast today by the Spanish government.

Advances against the rebels, who have fought for almost four weeks to establish a dictatorial government in Spain, and repulse of rebel offensives on various fronts were pictured in official quarters as heralding the end of the civil war.

But even as the government launched a three-way drive to wipe out its opposition, rebels in the far north pressed on toward San Sebastian, on the Bay of Biscay, in an effort to break the hold of government troops on the northern seaboard.

Rebel forces were within eight miles of San Sebastian. Reinforcements were moving up to the attack. Tolosa fell to them Tuesday, and rebel soldiers sang and danced in the streets last night. Tolosa is one of the key cities just south of the bay up in the path of the rebel advance.

Government Air And Land Forces in Drive

MADRID, Aug. 13.—(AP)—Government land and air forces rushed heading today into the three-pointed military drive against fascist rebels in northern and southwestern sectors.

Strong detachments of government militia massed near San Sebastian to oppose vigorously a rebel advance on the northern coastal city as fascist camps.

ARMED CONFLICT BETWEEN CHINA AND JAPAN FELT NEAR

LONG SERIES OF DIFFERENCES EXPECTED BRING OPEN WARFARE

PEIPING, China, Aug. 13.—(AP)—Armed conflict between China and Japan over a long series of differences was looked upon today in informed circles as not improbable within a short time.

Japan's military activities in North China and Inner Mongolia, which it is believed will be speeded up because of a Moscow announcement increasing the size of the red army, have greatly aggravated the tension between Nanking and Tokyo.

Japanese said efforts to induce China to undertake diplomatic settlement of a score of outstanding issues had failed.

Chinese in turn, said this was the result of China's fundamental distrust and fear of Japan which, they alleged, under a guise of economic development was attempting to establish a military hegemony.

American authorities here frankly stated a virtual deadlock in diplomatic activities between China and Japan did not augur well for peace in the Orient.

The smuggling of goods consistently are brought into China under the noses of Chinese customs officials without payment of duty, and the activities of the Japanese army, are two of the gravest issues between the two countries.

Bloodhounds And Guards Hunting Negro Convicts

HUNTSVILLE, Aug. 13.—(AP)—Bloodhounds and guards pursued through the Brazos river bottoms today Japanese negroes who escaped yesterday from prison clearing gangs.

MARY ASTOR CHILD CUSTODY SUIT WAS SETTLED THURSDAY

AGREEMENT REACHED BY ATTORNEYS FINALLY APPROVED BY JUDGE

LOS ANGELES, Aug. 13.—(AP)—Superior Judge Goodwin J. Knight approved a settlement agreement today in the sensational child custody fight between Mary Astor, film star, and her former husband, Dr. Franklyn Thorpe.

The judge approved the agreement dividing custody of the couple's young daughter, Marylyn, after an hour's conference with Miss Astor, Dr. Thorpe and their lawyers, who reached the agreement last night.

Joseph Anderson, Dr. Thorpe's chief counsel, said Miss Astor will not regain possession of her diary, and even Judge Knight "will not know where it is."

Judge Knight said he would enter judgment today embodying the agreement.

"Little or no change" in the agreement was made in the conference, Anderson said.

Anderson expressed belief that the division and terms of custody are so arranged that it will work out harmoniously. He would not say whether any third party or arbiter would be named, officially or unofficially, to administer terms of the agreement.

First news of Judge Knight's approval of a settlement was brought out of the conference by Anderson's legal associate, Ethel M. Pepin. Judge Knight, Miss Astor and her attorney, Roland Rich Woolley, emerged later.

Woolley and the actress hurried from the courtroom. She seemed somewhat grim and slightly downcast.

Dr. Thorpe, who came out of the conference with Miss Pepin, said the question of what will become of Miss Astor's diary had been settled. He was asked if he

Townsend Will Deliver Address After Convention

CLEVELAND, Aug. 13.—(AP)—A controversy within the Rev. Chas. E. Coughlin's National Union for Social Justice over whether Dr. Francis E. Townsend should address its convention was settled today with an announcement by Coughlin that Townsend would speak to the delegates Saturday.

That will be after the official close of the convention, the Royce, Mich., priest said. The convention ends officially at noon Saturday.

Opposition to appearance of the founder of the old age pension movement had been raised by Walter D. Davis, convention marshal.

"I have not extended an invitation to Dr. Townsend to speak before the convention," said Father Coughlin on his arrival today.

"The business session of the convention are expected to be concluded by Saturday noon. From then on we will be calling on many speakers."

OPPORTUNITIES FOR VOCATIONAL EDUCATION IN TEXAS BE GREATLY ENLARGED UNDER FEDERAL FUNDS

WASHINGTON, Aug. 13.—(AP)—The office of education predicted today vocational education opportunities in Texas would be expanded to "many more youths and adults" under enlarged federal contributions made available under the new George-Deen act.

The office announced the act, passed by the 74th congress, would give Texas a federal contribution of \$788,461 a year for vocational education.

Funds would become available next July 1. The government then would be appropriating more than twice as much money for vocational education that it did prior to enactment of the new law.

INMATES ESCAPE DEATH AS ASYLUM BURNS

LOWERING OF TRADE BARRIERS BETWEEN GERMANY AND U. S.

AMBASSADOR HANS LUTHER PRESENTS NOTE ON SUBJECT TO AMERICA

By STANLEY P. RICHARDSON, Copyright 1936 by Associated Press. WASHINGTON, Aug. 13.—An early lowering of trade barriers between the United States and Germany was forecast in reliable quarters today following presentation by Ambassador Hans Luther of an important note on the subject to William Phillips, acting secretary of state.

The content of the note has not yet been revealed officially but it was learned authoritatively that it conveyed the German government's agreement to discontinue wide subsidizing of exports to the United States. This practice impelled the United States more than a month ago to levy extra duties against German imports into this country.

The German government's action was expected in well-informed quarters here to result in a withdrawal of the treasury department imposing the excess taxes in the form of "countervailing duties."

The German move, it was stated, would apply to all contracts for exports to the United States concluded since Aug. 3.

Although the German government's decision generally is expected by informed quarters here to remove such artificial obstacles to German-American trade, it was predicted nevertheless that an increase in commerce between the two countries might not result, due in large part to the scarcity of foreign exchange in Germany.

Henceforth, German purchases in the United States must be paid in dollars.

See TRADE BARRIERS, Page 4.

Man Fatally Injured

BRYAN, Aug. 13.—(AP)—Frank Cox, 23, injured Sunday when a truck left the highway and crashed into a lumber company office here, died last night. His body was sent to Fort Worth for burial.

Texas Is 41st Among States In General Deaths

AUSTIN, Aug. 13.—(AP)—The Texas planning board announced today that Texas ranked 41st among the states in deaths from all causes but stood 14th in deaths from infectious and parasitic diseases.

Woman Sheriff to Hang Young Negro Rapist Friday

OWENSBORO, Ky., Aug. 13.—(AP)—Authorities estimated today approximately 10,000 persons would witness at dawn her tomorrow the public hanging of Rainey Bethea, 22, convicted negro rapist-slayer, by a woman sheriff.

Authorities issued warnings against drunkenness and public disturbances the morning of the execution.

The hanging—the first to be held in Davies county since two men were executed 31 years ago, will be conducted in the fenced yard of the county garage.

While officers awaited arrival of Lt. P. H. Hanna, Epworth, Ill., veteran consulting executioner, and the top section of a 20-foot gallows, Mrs. Florence Thompson, Davies county sheriff, declined to divulge the extent she will participate in the execution.

Bethea allegedly confessed to the fatal criminal assault June 7 of Mrs. Eliza Edwards, 70.

CLAIM CIVIL SUITS BE FILED SEEKING FLOGGING DAMAGES

DEPARTMENT OF JUSTICE TO PRESENT PEONAGE EVIDENCE GRAND JURY

MEMPHIS, Tenn., Aug. 13.—(AP)—Counsel for the Southern Tenant Farmers' Union said today civil suits seeking damages for the alleged flogging last June of Miss Willie Sue Bladen, Memphis social worker, will be filed soon in federal court at Jonesboro, Ark.

This announcement followed reports from Washington that the department of justice would present "conflicting evidence" of farm peonage in Eastern Arkansas to a federal grand jury at Little Rock.

Miss Bladen and the Rev. Claude Williams of Little Rock said they were flogged when they went to Earle, Ark., to investigate the reported death of a negro sharecropper during a strike called by the Tenant Farmers' union.

Attorney General Cummings said at Washington the government found no basis for federal prosecution in the flogging charges.

Texas Is 41st Among States In General Deaths

AUSTIN, Aug. 13.—(AP)—The Texas planning board announced today that Texas ranked 41st among the states in deaths from all causes but stood 14th in deaths from infectious and parasitic diseases.

FOREST FIRES ARE GAINING HEADWAY AGAINST FIGHTERS

OFFICIAL PESSIMISM RAMPANT AS FLAMES SPREAD IN MINNESOTA

ST. PAUL, Aug. 13.—(AP)—Unlimited powers to protect life and property in the fire-ravaged North Woods area was vested in Grover Conzet, state forester, by the state conservation commission today.

"Conzet told the commission one district alone was reporting on 41 fires daily."

"No fire in the state is absolutely under control because if high winds come, they will be out of control," he said. "The situation is out of our hands and is entirely subject to acts of God."

ST. PAUL, Aug. 13.—(AP)—Towering flames spread swiftly through a northern wilderness today despite the efforts of 25,000 grimy men who labored under increasing hazards.

Official pessimism grew. Adverse winds and low humidity handicapped the fire fighting forces. Minnesota state forester, Grover Conzet, warned: "Anything may happen."

Hundreds of men were picked up on the streets of International Falls, Minn., and enlisted along adjacent highways. They joined 1,000 others striving to head off an uncontrolled blaze on the international boundary north of Kabetogama Lake which burned after blackening 6,000 acres.

Trucks rushed CCC reinforcements and 8,000 feet of hose to the Tom Lake front in the Grand Portage state forest in northeastern Minnesota. "The worst fire there remained unchecked after charring 6,000 acres of virgin timber."

Some 1,000 men failed to check flames creeping over new wood land in the Markham section of Minnesota. It flared anew after leveling 22 farm homes over the week-end.

Conzet termed the situation the worst in the state's history.

GROWING CONDITIONS OVER TEXAS REPORTED BETTER THAN THOSE OF EARLY SUMMER TIME

AUSTIN, Aug. 13.—(AP)—United States department of agriculture today issued a statement that growing conditions over Texas as a whole were improved over those of the early summer months.

Most of the state received rainfall late in June and during July and improved conditions were noted in early August except in the eastern Panhandle and north central area where the drought situation is critical. V. C. Childs, senior agricultural statistician, declared:

"Range and pasture conditions were above average for Aug. 1 and with the exception of north and northwest Texas, the state is in excellent position," Childs stated.

The cotton crop is forecast at 3,850,000 bales on the 1,912,000 acres of Aug. 1, a yield of 155 pounds per acre. Last year the state produced 2,956,000 bales.

Condition of corn was reported steadily improved during July, standing at 67 per cent of normal on Aug. 1 as compared with 56 per cent a month ago. The yield per acre is indicated at 16 bushels, slightly above that of July but somewhat below last year and the general average. Total crop is predicted at 68,192,000 bushels, considerably below that of last year.

FEDERAL TAXES WILL NOT BE INCREASED IS TREASURY STATEMENT

CONFERENCE WITH PRESIDENT BRINGS STATEMENT TAXES MAY BE REDUCED

WASHINGTON, Aug. 13.—(AP)—A forecast that taxes will not be increased and may, in fact, be "slightly reduced," was made today by Secretary Morgenthau and congressional tax leaders after a conference with President Roosevelt.

The treasury head, Chairman Harrison of the senate finance committee, and chairman Doughter of the house ways and means committee, at a joint press conference that followed, said improved business conditions had so fortified the treasury that no new or increased taxes will be necessary at the next session of congress.

In addition, they announced an immediate study of the whole tax structure, including the law enacted this spring placing corporate taxes upon a new basis. The study would seek, they said, the elimination of "inequalities" and "administrative difficulties" which may result in the elimination of some of the miscellaneous or nuisance taxes.

The early morning White House meeting, held just prior to the president's departure on a flood control survey, studied a recommendation from Secretary Morgenthau.

"Any changes in the tax structure should, therefore, not be in the direction of increased taxes. But this very situation makes it possible and timely for us now to consider revising our laws with the purpose of removing any inequalities or unnecessary administrative difficulties that may be inherent in the law and abating or modifying taxes that create unfairness to revenue taxpayers or to trade or have other disadvantages which outweigh their revenue yield."

Harrison emphasized that experts of the joint congressional committee on revenue taxation would be instructed to begin the survey immediately, in co-operation with experts of the treasury.

Morgenthau's recommendation. See TAXES, Page 6.

Senator McKellar Says Power Firms Are Holding Key

NEW YORK, Aug. 13.—(AP)—Senator Kenneth McKellar of Tennessee said today the extension of federal power activities, such as the Tennessee Valley Authority, "depends upon the power companies themselves."

The senator, who was one of several leaders from Southern and "border" states who conferred today with Democratic Chairman James A. Farley, said "if the power companies make sufficient reductions in their charges, the stationing of the TVA policy will not be necessary."

Senator McKellar said the Tennessee Valley Authority "has been one of the most valuable activities of the federal government."

Man Who Looked Death In Face 18 Hours Is Saved

IRVING, Aug. 13.—(AP)—Workers rescued J. E. Roberts, 60, from a quicksand trap in a well bottom after he had watched water rising about his body for 16 hours and 35 minutes.

Roberts in a Dallas hospital said his condition was not critical. Roberts was pinned in the cave-in of well sides and a newly constructed curb at 3:15 p. m. yesterday. Heavy stones pinnated his feet, preventing movement.

Lis son, Alfred, 33, bailed frantically at rising waters and shouted for help. Two hours later gas company sub-station employees installed a hand pump.

Rescue work was slow and tedious. Only one man at a time could work. Attempts to pull Roberts from the trap with a rope brought screams of anguish.

For a time the water seemed certain to rise over Roberts' head. Several times it reached his neck. Workers installed a gasoline motor pump and lowered food and hot drinks throughout the night to the victim. He remained conscious, alternately pleading for

BRAVE SPIRITS CONFRONT REAL ISSUE IN DAY'S DESTINY *

Principle That Lies Deeper Than Political Platforms and Panaceas—Sober Thoughts Concerning An Unsober World.

By WILLIAM T. ELLIS

Mostly we dodge the issue; but some few brave spirits are clear-eyed to the tremendous truth that the world's real problem today is the building of a new order of society wherein men and women will be free, and know how to use freedom; social-minded, without either slackness or selfishness; clean and strong in body and mind, and bent upon achieving the highest possible form of human destiny for everybody.

In other words, the new civilization which the world is seeking will not be any ill-balanced thing like Russianism or Fascism or Nazism or existing capitalism, but a life of liberty, responsibility, service and brotherhood.

This is the task we confront. It will be slow (our indulgence in dreams of a world remade overnight by some act of legislation or revolution is evidence of our immaturity); it will be a long and arduous task, and it will never, never be accomplished until we have got down to the roots of human character, and have applied the forces which make men different in the very springs of their nature.

That remains, as it always has been, primarily the work of religion. We shall never transform society as a whole until we have made over men and women as individuals. The real world-changers are life-changers. In the appraisal we may discover that many unknown Sunday school teachers have wrought more mightily than some press-agented publicists.

Books, And The Book.

Publishers' lists are overloaded nowadays with panaceas for society's manifold ills. Wiser than all of them is the old Book, already in the possession of most civilized peoples which deals directly with cause and effect. The Bible advocates no special order of organization for society; but from first to last it concerns itself with the heart of man, out of which are the issues of life. It is supremely interested in character; and in man's relation to God, which shapes his character.

"Line upon line, precept upon precept," this old Book, into which is distilled the wisdom of the ages and of the sages, plus the clear will of the Eternal, stresses the importance of personality and character. It stamps man with Divine qualities. Its goal is godliness in human behavior.

Naturally, such a Book could not be silent upon the subject of self-indulgence and self-control. Its pictures of drunkenness, among the most vivid in literature, offers, instead of the excitement of alcohol, the exhilarations of the Spirit.

Old as the race are the manifold evils of drunkenness. They have been obvious since the days of Noah. Throughout the ages the greatest pens have lent themselves to this theme. If horrible examples were sufficient to teach the dangers and evils of indulgence in strong drink, humanity could have been well taught long ago.

Society will not have attained to the level for which the best minds strive until some way has been found of using the perils and blight of liquor from the race. It simply is not fair to a young man to start him out in life with a drinking habit that is a potential curse.

Is Younger Generation Stupid?

One of the striking phases of the old novel, "Ben Hur," was its portrayal of the hero's measures to prepare himself and his followers for armed service of the Caesars. The young man of the hour of need should strike. To every youthful reader the book cried, "Prepare! Prepare! Prepare!"

Youth is the preparation time for great living and great doing. Wise young men and women throughout the ages have grasped this profound truth and have devoted themselves sternly to the duty of making ready for destiny. This means self-discipline and self-denial. One cannot spend his spare daytime hours with the sporting page, and his evenings at the movies and dances, and still fit himself for a great career. No more can one follow every fashion and indulge every desire. Real life demands a more Spartan regimen of training than an athletic career.

There are those who declare that the present "younger generation" is stupid in its indifference to life's serious side, and in its engrossment in the pleasures of the moment. Of course, "No generalization is true—not even this one." Certainly some

TEMPERATURE HERE TUESDAY ONE DEGREE LOWER THAN MONDAY

TUESDAY NIGHT, HOWEVER,
PROVED SULTRIEST OF
SUMMER SO FAR

A shift of the wind from the north to the south Tuesday afternoon halted the rapid rise in temperature and the official high reading for the day was 109, just one degree short of the record high for the season, reached Monday. The minimum temperature Tuesday night was 81. Tuesday night was the most sultry and disagreeable night of the summer.

The temperature did rise so high Wednesday morning and there was considerable breeze from the south. The clouds, however, made the morning heat oppressive.

Cotton stood up well under the siege of heat that started early last week but if the hot winds had blown many days like they did Tuesday, heavy damage would have resulted.

Insurance companies never declined a risk because he did not touch booze.

Laws do not penalize automobile drivers for staying sober. Family atmosphere has never been improved by the odor of strong drink.

Social workers do not report that relief rolls are swelled by temperance.

Battles have been lost by drunkenness in the high command; but none was ever won by an intoxicated staff.

All the arguments that should appeal to reason, far-sighted youth are in favor of complete abstinence from alcohol.

The Great Goal.

All high-minded and forward-looking persons cherish as their goal a spiritual conception of life. That is a greater argument for total abstinence than any amount of horror statistics. On this basis the New Testament establishes its position.

At the core of the passage from Galatians which is the present lesson we have this pregnant summary:—"He that soweth unto his own flesh shall of the flesh reap corruption; but he that soweth unto the Spirit shall of the Spirit reap eternal life." Elsewhere in the great eighth chapter of Romans, Paul says, "To be carnally minded is death; but to be spiritually minded is life and peace."

SEVEN SENTENCE SERMONS

Notice

Is hereby given that in compliance with Art. 689a-11, Civil Statutes a public hearing will be had at the Commissioners' Court Room, Corsicana, Texas, Tuesday, August 25, 1936, at 10 o'clock a. m. and that on said date of hearing the bridge as prepared and now on file in the County Clerk's Office will be considered by the Commissioner's Court.

Any taxpayer of this County shall have the right to be present and participate in said hearing.

C. E. McWILLIAMS, County Judge.

Attest: L. L. POWELL, County Clerk.

Why A Third Term?

TO THE VOTERS OF NAVARRO COUNTY—

I take this means to express my thanks for the splendid vote I received in the first primary for the office of District Clerk of Navarro County.

Many people do not realize that this office pays a salary of \$4,750 a year—\$750 a year more than the governor of Texas receives for his salary.

I need this office badly, and no one can deny that I am well qualified to hold same. My son has recently finished High School and it has been my life's ambition to give him a college education. My father died before I was born, and having my mother to take care of, the advantages that I had for an education were limited. If elected to this office I would be enabled to give my son the higher education that I was not privileged to receive.

At the expiration of his present term my opponent, Mr. Doyle Fevehouse, will have enjoyed the high salary this office pays for four years. Four years (two terms) is as long a period of time as you have ever permitted anyone to hold the office of District Clerk. I willingly admit that Navarro County owes me nothing. My opponent must admit that Navarro County owes him nothing because he has had two terms in office, and at a time of the worst depression this generation ever experienced. In all fairness to all of the ambitious young men and women of this county, don't you think that the high-salaried offices of this county should be passed around?

I faithfully promise that if I am elected to the office of District Clerk I will not try to perpetuate myself in office by building up a political machine. On the other hand I will, like the immortal George Washington, refuse to run for a third term, and give some other deserving man or woman a chance to receive the benefits of this office.

I earnestly solicit your vote and influence in the primary election of August 22nd.

Respectfully,

J. A. (Jerry) ROE

Why A Third Term?

Why A Third Term?

Why A Third Term?

Courthouse News

County Court.

A jury commission composed of Zack Banks of Powell, George Watson of Barry and Fred White of Retreat selected petit jury lists for the September, November and January terms of the county court.

County Clerk's Office.

The following absentee applications not previously reported have been filed in the office of L. L. Powell, county clerk, bringing the total number to 144.

Julia Callicutt, Austin, Ward 3; Evelyn Callicutt, Dallas, Ward 3; T. J. Rouse, Corsicana, Ward 3; Mrs. V. H. McMillan, Corsicana, Ward 2; Nettie Bonner, Aubrey, Route 2, Ward 3; Kathleen Reed, Austin, Bazette No. 9; G. W. Weems, Corsicana, Ward 2; Mrs. G. W. Weems, Corsicana, Ward 2; John T. Brown, Houston, Ward 4; Nona Wade, Rockwall, Navarro No. 36; Mrs. E. C. Greenlee, Corsicana, Ward 3; Mrs. Blair Boyd, Zion's Rest, Zion's Rest No. 18; Marvin Garrett, Fort Worth, Roane No. 34; Emily R. Sharp, Corsicana, Ward 3; A. Young, Dallas, White's Chapel No. 41.

Dr. S. H. Burnett, Corsicana, Ward 3; Mrs. R. D. Mabry, Waco, Kerens No. 20; R. D. Mabry, Waco, Kerens No. 20; Mrs. R. F. Jones, Hobbs, N. M., Montfort No. 23; R. S. Daniel, Jr., Gladewater, Ward 3; G. R. Epperson, Free City, La., Petty's Chapel No. 29; Mrs. Julia Christian, Lafayette, Ala., Ward 3; J. L. Miller, Corsicana, Ward 4; Mrs. Helen P. Lindley, Washington, D. C., Ward 3; Nellie Lindley, Washington, D. C., Ward 3; Henry S. Barton, Corsicana, Ward 3; Mrs. H. E. Wassell, Austin, Ward 4; Elanche McElie, Bates, Colo., Ward 4; C. T. Reid, Embury, No. 22; Ralph Montgomery, Embury, No. 22; Monroe Speed, Kerens, No. 20; Clinton P. Floyd, Kerens, No. 20; Mrs. N. S. Crawford, Kerens, No. 20; Mrs. Claude Hollingsworth, Retreat, No. 48; E. A. Johnson, Corsicana, Ward 4; W. J. Smith, Corsicana, Ward 2.

The fourth expense accounts of candidates in the democratic run-off primary election, Saturday, August 22, must be filed in the county clerk's office not later than Friday, August 14.

Records in the county clerk's office reveal that in the past three run-off democratic primaries in 1930, 1932 and 1934, there were more votes polled in Navarro county than in the first primaries for those years.

There had been 144 absentee applications filed in the county clerk's office Wednesday morning while absentee voting will not close until Wednesday, August 19.

Warranty Deeds.

B. Harwell, et ux, to Carro Davis Kelton, 28.185 acres of the George Hempling survey, \$1,000 and other considerations.

Frances G. Jester to Thearon A. Carroll, lot 2, block 9, College Hill addition, Corsicana, \$77, and other considerations.

Mineral Deed.

Mrs. Emma Tramel, et al, to W. J. Deskin, 1-16th interest in 3 1-2 acres of the B. L. Hanks survey, \$10.

Justice Court.

One was fined Wednesday morning by Judge W. T. McFadden for overloading a truck.

TOGETHER AGAIN

Surpassing the romantic heights they reached in "Broadway Bill" and "Penthouse," Warner Baxter and Myrna Loy are again co-starred in the new Twentieth Century Fox production, "To Mary—With Love," coming to the Palace, Saturday night, at a special Midnight Show, also Sunday and Monday.

Women's Auxiliaries Of Wortham Churches

In Session Monday

WORTHAM, Aug. 12.—(Spl.)—The young people of the Methodist Protestant church were the honor guests of the Women's Auxiliary Monday afternoon at the delightful home of Mr. and Mrs. Oliver Bounds. Mesdames Frank Bounds and Parker Means assisted Mrs. Bounds in the charming hospitality.

The entertaining and enjoyable program for the affair was given by the young people membership, which consisted of Scripture readings, prayers, piano solos, voice solos, piano and voice duets, accordian solos, and readings.

Those contributing to the program were Willie Dale, Magness, Merle Plunkett, Lavada Wilson, J. T. and Colbert Puerfoy, Gladys Anita Posey, Mesdames Oliver Bounds, J. V. Lee, R. W. Williford, T. L. Crenshaw.

Some forty members were present to hear this unusual program, among the number noted were: Mesdames W. A. Posey, Clyde Ross, M. C. Strange, E. A. Strange, J. S. Steadman, E. A. Puerfoy, Lewis Irvin, G. W. Bounds, Bob Lee, W. A. Loveless, Del Davis, F. L. Cole, Jesse Keeling, R. W. Wilson, Jub Carls, J. V. Lee, T. L. Crenshaw, R. W. Williford, Gladys Anita Posey, Lavada Wilson, Grace Mae Weaver, Merle Plunkett, Donnie Mackey, J. T. Puerfoy, Colbert Puerfoy, Zabelle Posey, Willie Dale Magness, Annice Patterson.

Mrs. T. B. Polndexter, first vice president, presided in absence of the president, Mrs. Dick Wimberly, who was enjoying her vacation out of the city with her husband and little daughter, Brownie.

Messages were read of the Elrods, who have recently gone from the Wortham church to Costa Rica. Some pictures of the country and "field" and workers received from Rev. and Mrs. Elrod were passed, that gave a nearness of the work in this particular country. The Elrods were remembered, along with the workers in the National and Foreign field at the prayer given during the devotional which was beautifully given under the devotional leader, Mrs. W. B. Weaver "If I Be His Disciple."

During the social hour the hostesses passed "cooling refreshment plates."

PLUMBING SHOP IS MUSEUM THAT HOUSES PRIVATE COLLECTION

FOUR CORNERS OF EARTH MEET IN UNIMPOSING CLEBURNE SPOT

CLEBURNE, Aug. 13.—(P)—The four corners of the earth meet in a museum housed in the W. J. Layland plumbing shop here.

Layland, a native of the west, north and south in his hunt for curios and antiques and assembled a collection he values at hundreds of thousands of dollars, and regarded as the largest and most complete private museum in Texas.

A Chinese gong lies at the feet of an Indian idol, the peace pipe of the Sioux and the broad war adz of ancient Rome rests side by side on a shelf. The granary of the Aztec, a papoose case of a million beads, wooden shoes of the Hollanders—all are grouped together.

Here East meets West and South meets North for the curious to gaze at.

More than 50 years ago Layland was fascinated by some arrowheads found on the Illinois farm where he was born and reared. His mother had for several years the hobby of collecting curios and when Layland was six years old he began his own collection—stamps. That led to an interest in assembling extraordinary things.

He says the value of his collection would run into many thousands of dollars. "I would not want to sell it," he says, "but I would be glad to give it to some city if a suitable building to house it were provided and proper care taken of it."

Plumber By Trade

By profession Layland is a plumber but his place represents about ten per cent shop and ninety per cent museum. Relics of early Americanism predominate in the collection although virtually every country is represented. The collection might be classified roughly into three divisions: prehistoric, Indian and Colonial American.

Outstanding are such antiquities as a clock Layland says was on the ship that brought Columbus to the new world, a Roman cross-bow, a blunderbuss of the Spanish Main, the long-barreled rifle of the Deserlayer, an English Bill of Rights printed in London in 1570, and a grandfather's clock made in Cincinnati in 1777. In the center of these things lies the skeleton of an ancient cliff dweller.

Layland is also adept at taxidermy. There are stuffed birds and animals of various hues and climates. He has a collection of butterflies worth thousands of dollars.

Fifteen thousand dollars worth of his relics are on exhibit at the Dallas and Fort Worth Centennials.

ODD FELLOWS HOME CHILDREN TO ATTEND CENTENNIAL AUG. 26

Children of the I.O.O.F. Home here, along with sufficient faculty and employee supervision, will attend the Texas Centennial, Wednesday, August 26, I. O. O. F. Day, according to an announcement Thursday morning by local Lodge officials.

Corsicana Lodge No. 63, I. O. O. F., will furnish the transportation necessary while the Dallas I. O. O. F. Bodies will furnish entrance fees to the grounds and two meals for the students while there. High ranking officials of the Texas Grand Lodge and Sovereign Grand Lodge in addition to delegations of Odd Fellows from Texas, Oklahoma, Louisiana and Arkansas are expected to be on hand.

Students of the Home will also be featured on the program for that day.

Superintendent and Mrs. C. B. Cough will head the delegation from Corsicana while it is expected there will be numerous members of the local lodge on hand. Several thousand Odd Fellows from the Southwestern area will be at the Centennial on August 26.

1,000 Patients State Hospital In Iowa Rescued

MT. PLEASANT, Ia., Aug. 11.—(P)—Hospital authorities and highway police today sought 15 patients believed to have escaped last night when fire destroyed the Iowa Hospital for the Insane here.

None of them was believed to be dangerous.

Dr. Leonard Ristine, director of the hospital, estimated damage to buildings and equipment would total \$200,000; and immediately laid plans for housing the 1,025 inmates, all of whom were safely removed from the building. The inmates were temporarily housed in Iowa Wesleyan College dormitories.

The fire, which Dr. Ristine said probably broke out in the recreational hall, destroyed the entire center section of the hospital. Many of the 5,000 spectators assisted in controlling the inmates as they were hurried out of the flaming structure. The townpeople locked arms to form a cordon. Down this lane formed by the crowd the attendants conducted their deranged charges—a number of them screaming and wailing in their fright.

A number of patients, unable to walk, were carried from the blazing building. Several employees, trapped in their apartments on upper floors and clad only in night clothing, were brought to the ground on ladders. Officials estimated the damage at almost \$500,000.

ROTAN MAN DIED IN MUD AND SLUSH OF CAVING WELL

ROTAN, Aug. 11.—(P)—After more than nine hours of frantic efforts in mud and slush, crews working in shifts removed the body of Houston Bridges, 22 from a 20-foot well on the C. L. Rotan farm near Rotan at 1:15 Tuesday morning.

Bridges was buried standing up, his arms pinned to his sides, and workers had to use a mud pump borrowed from a bridge construction job near McCauley before his body could be brought to the surface with a rope.

Bridges had been employed to clean out the well, and was working with Cave and Willie Hardy when the mishap occurred. He had started to come out of the well when a wood casing gave way burying him to the shoulders.

A few minutes later the top gave way, burying him with six feet of debris. Cave came to Rotan for help, and a lung motor was rushed from Sweetwater, but as the well continued to cave and rising water changed the dirt to slush, hope of bringing the man out alive faded.

Hundreds of persons gathered at the scene, and at midnight the crowd was estimated at more than a thousand. Scores aided in the removal of the body, although only two or three could work at a time because of the danger involved.

Funeral rites were set at 4 p.m. Tuesday in Rotan. Bridges is survived by his wife and a two-year-old daughter. His parents are Mr. and Mrs. H. S. Bridges of Rotan. He had spent most of his life here.

Ice Cream Supper

There will be an ice cream supper at Grape Creek Friday night, Aug. 14th, benefit of the Cemetery Fund. Candidates especially invited.

Get Rid of Poisons Produced by Constipation

A cleansing laxative—purely vegetable Black-Draught—is the first thought of thousands of men and women who have found that by restoring the downward movement of the bowels many disagreeable symptoms of constipation promptly can be relieved. Mr. J. P. Mahaffey, of Clinton, N. Y., writes: "I have found that Black-Draught is very effective in the cleansing of the system. When afflicted by the dull headache, the drowsiness and lassitude caused by constipation, I take Black-Draught. A natural, purely vegetable laxative."

ORVILLE BULLINGTON DELIVERED KEYNOTE ADDRESS TEXAS GOP

CHARGES ROOSEVELT REPUDIATED ALL COVENANTS AND PARTY MADE

SAN ANTONIO, Aug. 11.—(P)—Republicans of Texas in state convention cheered wildly today as speakers denounced the new deal and predicted victory for the national party nominees in November.

R. B. Creager of Brownsville, national committeeman, started the fireworks with the declaration that Texas would land in the republican column as it did in 1928. Orville Bullington of Wichita Falls, temporary chairman and a former candidate for governor, charged President Roosevelt had repudiated the democratic platform and sought to destroy the "letter and spirit" of the constitution.

In the keynote address, he called on democrats as well as republicans to restore constitutional government, adopt a pay-as-you-go policy instead of "looting the treasury" and take the government out of business.

Hundreds of delegates were present as Hugh Exum of Amarillo, vice chairman of the state executive committee, called the convention to order. Landon sunflowers were everywhere and portraits of the republican presidential nominee were on the platform.

SAN ANTONIO, Aug. 12.—(P)—Orville Bullington of Wichita Falls delivered the keynote address at the republican state convention, today excoriated the new deal and called on Texans to help restore common sense government.

He charged that President Roosevelt had challenged the American system of government and repudiated the covenants "which he and his party so solemnly made."

"Never before in the history of the republic," he said in his prepared address, "had any president failed to make an honest effort to perform the promises of the political party which he elevated him."

He asserted the president had formed a gigantic bureaucracy which "under his clever and demagogic leadership threatens even to destroy constitutional government and the human and property rights guaranteed thereunder."

Political gangsters and racketeers, he declared, have successfully conspired to loot the federal treasury and use the "substance of the people to form the costliest and most corrupt political machine ever set in motion."

Dangerous Elements
"It is fact that every dangerous and subversive element in America is life is supporting the new deal," he said.

The republican party, he continued, offered as a "substitute for the foolish expenditures of the democratic administration a program of commonsense government," including adoption of a pay-as-you-go policy.

"We would promote recovery by saving instead of spending," he said. "Institute government by democracy instead of bureaucracy; withdraw government from socialistic experiments and from competition with private business; demand that public officials perform in good faith their party promise."

People Flock to Centennial to Get Away From Heat

DALLAS, Aug. 11.—(P)—T h e Centennial Exposition has found heat is a spur to attendance. The reason: Many of the buildings are air-conditioned.

Yesterday 30,466, considerably above the usual Monday attendance, trooped into the grounds. Officials reported the air-cooled exhibits and lounge rooms drew the biggest throngs.

Officials and employees were to halt their activities for five minutes today in homage to the late W. A. Webb, general manager who piloted the Centennial to success. A memorial day will be set aside in his honor. It probably will be held in September.

Yesterday's attendance brought the grand total to 2,706,775.

liberty and freedom
"We pledge a return to the American system of liberty and freedom with government under the written constitution as against enslaving communism and fascism."

While admitting republicans had little chance of electing state nominees, Bullington advanced a program for the "welfare of the state." Specifically he advocated abolition of the poll tax, a sales tax for state purposes, adoption of a sales tax, abolition of useless state offices and consolidation of others, reform of the judicial system, registration of voters, abolition of the poll tax, removal of eleemosynary institutions from politics.

"The republican party knows and has the courage to state," he said, "that the sales tax is the fairest, simplest and most equitable way of collecting state revenue."

STATE DEPARTMENT ASKS AMERICANS TO QUIT SPAIN AGAIN

POSSIBILITY THAT DISRUPT- ED TRANSPORTATION FAC- ILITIES IS REASON

WASHINGTON, Aug. 13.—(P)—A new appeal to Americans to leave the danger zone of the Spanish revolution was dispatched today by William Phillips, acting secretary of state.

In a message to the American embassy at Madrid, which state department officials said applied also to all other strife-torn cities in Spain where Americans are located, Phillips said:

"I can not urge too strongly that all American citizens who can possibly do so take advantage of present facilities to go to places of safety."

Elaborating on the message at his press conference, Phillips said it was sent because of reports indicating an increasingly serious situation at Madrid and the possibility that present facilities for reaching Valencia by train from the capital must be disrupted.

More than 100 American citizens have been urged to leave Madrid because of business or family reasons. The same attitude has been adopted by a number of others in other Spanish cities.

The state department was advised meanwhile by the embassy in Madrid that government authorities in the capital were seeking to arrange a suspension of hostilities with rebel forces controlling Granada to permit the evacuation of all foreigners in that area.

These number about 40, of which something over 20 are Americans.

Corbet Home Club Women Entertained Their Families

CORBET, Aug. 13.—The women of the Corbet Home Demonstration club entertained their husbands and families on Aug. 11, with a picnic supper and watermelon feast on the Skinner gin lot. A bountiful supper was spread at 7:30, after which various features of entertainment, including several contests, games and a very comical reading given by Mrs. T. C. Baggett and Mrs. D. F. Roman on the club women's version of the men of Corbet, was greatly enjoyed by those present.

Those enjoying this very delightful affair other than the club members and their immediate families, were Mr. and Mrs. Albert Bittner, S. Tucker and daughter, Miss Pauline, Mrs. J. W. Crawford, Mr. and Mrs. Lawrence Womack and son, Kenneth, all of Corbet; Miss Alpha Grimes of near Waco, Mr. and Mrs. J. Skinner of Corsicana, Miss Nadine Presley of Henderson, and Miss Mabel Hazelwood of Waco.

The club members have accepted an invitation to join a group of other club ladies for a swim in the Y. M. C. A. pool Saturday afternoon.

A called meeting will be held in the home of Mrs. M. E. Roman at 2 p. m., Aug. 15.—Reporter.

To the Voters Of Navarro County

I am taking this method of thanking you for your vote and any consideration given me in the past. Also, to let you know that your vote for J. S. Callcutt in his race for District Judge will be appreciated.

Mr. Callcutt's years of experience as a Counselor at law and his service as District Judge by appointment, unquestionably, qualify him for the office he now seeks by election.

Sincerely,
D. D. HANKS.

MARY ASTOR

(Continued from Page One)
would relinquish possession of the diary, but said he could not discuss this, upon orders from the judge.

"I would have preferred the old arrangement to the new," said Dr. Thorpe.

The physician referred to the terms of the divorce he won last year from the actress whereby he was awarded full custody of the four-year old child.

"I gave the baby to Miss Astor more than half the time, anyway," said Dr. Thorpe, but if any issues arose I had the final word."

Dr. Thorpe said he did not contemplate any legal action against George S. Kaufman, Broadway playwright, for failing to appear as a witness although subpoenaed by Dr. Thorpe's lawyers.

When Kaufman did not come to the court on schedule Monday, Judge Kuntz issued a bench warrant for his arrest.

Miss Astor testified during the custody hearing that she told Dr. Thorpe of her friendship for Kaufman and that he "condoned" it.

Asked if he believed matters would run along smoothly under the settlement, Dr. Thorpe replied: "I'm no prophet."

"It is a comforting thought," he added, "that the court would have the final say if any argument arose."

Judge Studies Settlement.
LOS ANGELES, Aug. 13.—(P)—Superior Judge Goodwin J. Knight said at court-opening time today he would require "hours" to study a settlement lawyers agreed upon last in film actress Mary Astor's child custody suit against her ex-husband Dr. Evelyn Thorpe.

A few minutes later the judge called the warring couple and their lawyers into his chambers for a conference, the exact nature of which was not disclosed.

Before calling them in, Judge Knight pointed out that he has broad powers in the settlement matter and can amend the agreement, or reject it altogether if he so desires. The court session was held in the judge's chambers, but it was not called to order.

Witnesses and others stood by. Judge Knight also said he would "look over" Miss Astor's voluminous diary, which, although it, not been introduced in evidence, has been the basis for cross-examination of Miss Astor's about her association with other men, including George Kaufman, playwright, John Barrymore, actor, and other. The judge said he had no idea of reading all the diary.

Plan Worked Out For Custody Settlement.
LOS ANGELES, Aug. 13.—(P)—A plan whereby Mary Astor, film beauty, and her divorced husband, Dr. Evelyn Thorpe, will share custody of their four-year old daughter, Marylyn, was ready for the court consideration today.

Thus, the sensational, name-calling custody fight appeared almost as an anti-climatic denouement.

Opposing attorneys, who worked out the custody agreement during lengthy conferences, expressed firm belief it will be approved by Judge Goodwin J. Knight.

Possibility of judicial approval of the custody plan drew the curtain across a courtroom drama which approached its emotional peak, left a lot of questions unanswered and disappointed a palpitating film colony.

And the cause of most of the sensational episodes of the hearing—the purple-inked diary wherein Miss Astor jotted down the more exciting moments of her private life—will forever remain hidden.

"The whereabouts of Miss Astor's diary will forever remain a mystery," said Anderson, "it is a part of the agreement that no one save the litigants, their counsel and the court, will ever know what became of that diary."

The diary has been in possession of Dr. Thorpe since he divorced Miss Astor last year. His attorneys made strenuous efforts to introduce it as evidence that the auburn-haired screen actress would be an unfit mother for little Marylyn.

RECENT ACTION OF EXECUTIVE COUNCIL AFL TO BE IGNORED

LEWIS AND HIS INDUSTRIAL ORGANIZATION COMMITTEE TO GO RIGHT AHEAD

WASHINGTON, Aug. 11.—(P)—Formally defying an ultimatum from the leadership of the American Federation of Labor, John L. Lewis' committee for industrial organization went ahead today with plans to organize steel workers and other mass production employees into huge industrial unions.

At an unannounced meeting last night, the committee decided to ignore the recent "verdict" of the A. F. of L. executive council. The council had found 40 unions affiliated with the committee guilty of "fomenting insurrection" within the A. F. of L. and ordered them suspended from the federation Sept. 5 unless they withdrew from the committee.

Soon after the verdict, Lewis, president of the United Mine Workers, announced informally that he and his associates would "carry on." This decision was affirmed by the committee itself last night.

In effect, the decision served notice that the committee would not disband, despite the demands of the A. F. of L. leaders. It emphasized anew the split between the Lewis faction, which believes that in general workers in mass production industry should be organized into one large union and the craft unionists dominating the federation's executive council.

for in marks convertible into foreign exchange, whereas formerly through a system of export bounties paid to exporters, German industry was able to buy in the United States with so-called "faski" marks, which were not actually taken out of the country.

The reported German action toward discontinuing export subsidies was said to include prohibition of the use of such marks in the future.

of Dr. Thorpe since he divorced Miss Astor last year. His attorneys made strenuous efforts to introduce it as evidence that the auburn-haired screen actress would be an unfit mother for little Marylyn.

REVOLT
(Continued from Page One)
were reported established 12 miles from its gates.

Westward along the northern frontier powerful groups of Asturian miners, armed with dynamite, laid new siege to the rebel dominated capital of Oviedo province.

Fresh orders for renewed bombardment of insurgent positions in the southwest, in Badajoz and Caceres provinces, went out to the government air forces from the war ministry.

Attacking planes yesterday destroyed rebel batteries at Sigüenza, Guadalajara province, the ministry declared.

An official decree ordered closed all religious institutions directly or indirectly connected with the rebellion.

Forty-two generals were removed from the army as government authorities continued their purge of alleged fascist sympathizers in diplomatic and military posts.

**Early Collapse Of
Revolt Is Predicted**
By ALEXANDER H. UHL
(Copyright, 1936, By Associated Press.)
MADRID, Aug. 13.—The socialist government of Spain, supported by communists, predicted today the "vertical collapse" of the military-rightist revolt within a few hours.

Military leaders declared they were "awaiting at any time important news" from government forces in the field against fascist rebels.

The war ministry announced capture of four small towns in Cordoba province—Delfontes, Calahorra, De Lanceria and Aguacil.

A decree signed at Madrid dismissed Major Ramon Franco from the Spanish diplomatic service.

Major Franco, a trans-Atlantic flier, was formerly air attaché at the Spanish embassy in Washington and is a brother of Gen. Francisco Franco, commander in chief of the rebels.

**Bloody Victories
Claimed by Both Sides**
(Copyright, 1936, By Associated Press.)
MADRID, Aug. 13.—(P)—Victories written in the blood of weary soldiers were announced by both sides in Spain's civil war today, even as the socialist government forecast an end to the fascist rebellion within a few hours.

Artillery shells whined and burst on three fronts.

Opposing fleets of airplanes soared above battlefields scarred by shell fire, dropping bombs and raining bullets on hard pressed infantrymen.

Victorious in the Guadarrama mountains north of Madrid, fresh-ly launched on a wedge-like offensive in the south and disputing doggedly the new rebel offensive on the northern seaboard, the government said the revolt must collapse "within a few hours."

The three theatres of war today were at Oviedo, in the northwest, held by rebels; a tiny cluster of towns in the northeast, centered by San Sebastian and the fast-flying southern front roughly encompassed by the triangle between the cities of Seville, Cordoba and Badajoz.

(The rebel army at Tolosa, a few miles south of San Sebastian, has pushed its vanguard to within eight miles of the summer resort in fighting which probably has had no parallel for bitterness since the start of the revolution.)

(The main fascist army concentrated in Villabona, 12 miles from San Sebastian, which was stormed and captured yesterday.)

The Madrid war ministry issued renewed orders for bombardment of rebels in the southwest, in Badajoz and Caceres provinces.

(In extreme southern Spain, hard by the British-held Rock of Gibraltar, rebels marched on Estepona, 43 miles southwest of Malaga, to attack government troops barricaded there.

Two thousand rebel soldiers were due as reinforcements at Algeciras raked and burned by shell-fire from government warships.

**Rebel Planes Bombed
San Sebastian Resort**
(Copyright, 1936, By Associated Press.)
IRUN, Spain, Aug. 13.—Five rebel planes bombed the seaside resort of San Sebastian today, inflicting heavy damage in a final desperate offensive for possession of the city.

As the planes roared over the town, dropping missiles which pitted the streets and seriously injured eight persons, the rebel cruiser Almirante Cervera lay two miles off shore with its decks cleared for action.

The planes scored direct hits on five important points. The airport, anarchist headquarters and the main boulevard in San Sebastian, the summer resort which was once the vacation residence of the King of Spain, were included among the targets reached in the bombardment.

Flying fragments from the exploding bombs and pieces of masonry and other bric-a-brac thrown up as the planes registered on their objectives, struck residents of the town.

The rebel warship apparently was prepared to shell the city as the time limit on an ultimatum delivered to the city to surrender or undergo bombardment from the sea expired.

The government officials in control of the town refused to comply with the terms of the ultimatum.

The combined air and sea attack on San Sebastian bolstered an offensive by rebel infantry south of the city in a drive to sweep the northwestern seaboard from control of Madrid government forces.

TEXARKANA, Aug. 13.—(P)—Senator Morris Sheppard said here today that a successor to United States Marshal J. E. Ponder, who died Tuesday, would not be appointed until late next week.

A large number of applications have been received.

seven, will proceed immediately to the New York navy yard for outfitting and probably will leave for European waters within ten days.

Boycott of German Goods Unanimously Adopted By Jews

GENEVA, Aug. 13.—(P)—A resolution proposing a boycott of German products was adopted unanimously today at the World Jewish Congress.

German national socialism, said the resolution presented by the committee on boycotts, has declared war on the whole Jewish people and in three and one-half years has carried on a war of unexampled severity.

It recited further that the Jewish minority in Germany had been deprived of its most elemental civil rights and had been eliminated from the economic life of the country which drove it back to a new Ghetto.

FRENCH CONTINUE EFFORTS GENERAL NEUTRALITY PLAN

FRANCE BARS RECRUITING FOR SPANISH ARMIES IN THAT NATION

By CHARLES S. FOLTZ
Associated Press Foreign Staff.
PARIS, Aug. 13.—(P)—The government today barred recruiting in France for Spanish armies as the Quai D'Orsay renewed its drive for a general European neutrality accord.

The dictum was announced formally after a cabinet meeting. The Blum government could not prevent individual volunteers from crossing the Spanish border, Roger Salengro, minister of the interior, said, but mass recruiting would not be permitted.

The decision followed directly consideration of questions propounded by Premier Mussolini of Italy on the proposed non-interference agreement.

Mussolini specifically had brought up the question of recruiting and the collection of funds to help either side in the Spanish rebellion.

The cabinet decided, Salengro added, the government could not prevent organizations from raising funds for the Spanish socialist government or the rebel fascists by popular subscription.

PARIS, Aug. 13.—(P)—French officials looked eagerly today for a German note which they hoped would bring the international Spanish neutrality agreement close to completion.

Authoritative advices from Berlin said the note would announce Germany's adherence to the "hands off" accord in the Spanish civil war—a projected pact already accepted in principle by 13 European nations.

The way for the Nazi reply, which has been held up for days, apparently was paved by return of all German planes seized by Spain. On this condition, the Berlin government earlier had based its acceptance.

WHARTON HI SCHOOL BAND TO GIVE FREE CONCERT ON SUNDAY

Members of the Wharton Public School band, prize winners in the southeast Texas district, will be presented in a free concert at the Mineral Plunge on Sunday afternoon at 2:30 under the direction of Floyd G. Betts, school superintendent.

The band is composed of about fifty pieces and will give an hour program at Corsicana enroute to the Texas Centennial Central Exposition where they are scheduled for several appearances next week.

The musicians are expected to arrive in the city about noon Sunday and they will be the guests of the Mineral Plunge for a swim in the pool following the concert.

Manager Robert Cooksey announced Thursday that seats had been provided for the concert and that ample parking space would be available for those who desired to sit in their cars and listed to the band.

About 100 Votes Separate Trio Of Idaho Candidates

BOISE, Idaho, Aug. 13.—(P)—Lieut. Gov. G. P. Mix of Moscow held a 100-lead today in a three-way race for the Idaho democratic nomination for governor with votes from Tuesday's primaries tabulated for 642 of the state's 850 precincts.

The revised and unofficial vote was: Mix 9,239; Attorney General Bert H. Miller 9,125; Mayor Barbara W. Clark of Idaho Falls, 9,108. Five other candidates for the post trailed far back.

Arkansas Attorney General Is Leading For Governorship

LITTLE ROCK, Ark., Aug. 13.—(P)—Attorney General Carl E. Bailey improved his lead over Secretary of State Ed F. McDonald to slightly more than 2,000 votes, with only about 60 scattered precincts missing in Associated Press tabulations from the gubernatorial primary completed shortly before noon today.

The count in 2,065 precincts out of 2,126 gave: Bailey 73,607; McDonald 71,426; R. A. Cook, 59,096; Tom Terral, 23,825; Howard Reed 4,459.

PEONAGE

(Continued from Page One)
of possible violation of federal peonage laws by Southern planters.

The report, prepared by Samuel E. Whitaker, a special assistant to Cummings, contained "conflicting" evidence, the attorney general said. He declined to explain use of the word "conflicting," but said there was a question as to what federal laws were involved.

Whitaker's investigation, Cummings added, failed to produce any evidence that a federal statute had been violated in connection with the alleged flogging of Miss Willie Sue Blagden, Memphis, Wille Sue Blagden, Memphis, Claude C. Williams of Little Rock, near Earle, Ark., last June 15.

Announcement late yesterday of the department's action was greeted with outward unconcern by Arkansas planters.

Miss Blagden, here to lecture on living conditions of southern cotton workers, said she was "very glad" to hear that the justice department was "going to carry on the peonage charges."

Have No Information.
MEMPHIS, Tenn., Aug. 13.—(P)—Arkansas state and county officials said today they knew nothing of any movement on the part of federal investigators to present evidence of possible farm peonage to the grand jury which meets in Little Rock, Sept. 21.

Gle Rock that he was uninformed concerning the report.

U. S. District Attorney Fred A. Igrida also said he knew nothing of the federal activity.

COTTONSEED

(Continued from Page One)
Immediate application of the soil conservation act to the range was sought in a conference with W. B. Camp, assistant director of the southern division of agricultural adjustment administration, and other officials of the government agency.

Camp said conferences had not reached a point where definite proposals could be made. The Texans were particularly interested he said, in determining regulations of the act as they would be applied to ranges in Texas and Oklahoma.

ARSON

(Continued from Page One)
told officers he saw the fire spring from two widely separated points.

District Attorney Henry Pharr said the building had nothing explosive stored within its walls but the firemen were trapped by two explosions.

R. R. Owen, Candidate For Representative TO THE VOTERS OF NAVARRO COUNTY, A WARNING.

Every article I have written addressed to you was intended to appeal to your judgment and patriotism. This article is in the nature of a warning. During this week and next week I expect to see the most vicious verbal assault upon the integrity of our people that has ever been made. Politicians and others having special interests to serve, are figuratively going to have their arms around the necks of the voters, appealing to them to support this or that candidate and specious reasons will be assigned. It is the policy of wisdom for every man and woman to be upon their guard.

For an office like I am seeking no man could be expected to expend a great deal of money and it costs money to campaign, and have the people seen in any race, and if you are interviewed and earnestly besought to support this or that candidate, bear in mind that such spokesman is the representative of some interest which expects special favors of the candidate he is supporting if elected, and it will be the part of wisdom for every thinking individual to take with a grain of salt every statement which may be made to him in the closing week of the campaign.

I am a candidate for State Representative because I feel that the people of Navarro County need my service in the State Legislature. But first of all I am a patriot and I want to see those who fill our public offices righteously and honestly elected and I again urge upon all thinking voters, men and women, to beware in the last days of the campaign, of the campaign liar and of the paid henchmen of the candidates who are seeking their votes. Vote your own ballot, and take no action or suggestion from any cloaker of any of the candidates. If you do not do this, you make yourself the puppet of the designing politician. "Citizens protect your own." R. R. OWEN, Attorney. Candidate for State Representative. (Political Advertisement)

MAKE THIS MODEL AT HOME

THE CORSICANA DAILY SUN DAILY PATTERN

CLEVER BLOUSE PATTERN FOR YOU TO MAKE TWO WAYS

by Anne Adams

Just the captivating blouse you have been looking for to lend a note of gaiety to your autumn wardrobe—Pattern 4041! Think how it would dress up last year's suit or enhance your new autumn ensemble! Select gleaming satin or a new, dull surface crepe for a "dress up" version—and make it with long sleeves (fashioned all in one with the chic yoke) and graceful bow. You'll like the short-sleeved version in a smart "wash" crepe with contrasting buttons and a matching flower. Easily made, is this charming Anne Adams blouse, a perfect style for informal or dressy occasions.

Pattern 4041 is available in sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42. Size 16 takes 2-3/8 yards 39 inch fabric. Illustrated step-by-step sewing instructions included.

Send Fifteen Cents (15c) in coins or stamps (coins preferred) for this Anne Adams pattern. Write plainly, name, address and style number.

BE SURE TO STATE SIZE
Be sure to order your copy of our Anne Adams Pattern Book! See all the lovely clothes you need for the coming season in smart, simple models that are even fun to make! Perk up house dresses and play outfits. Fetching frocks for parties. The latest slenderizing designs for slacks. Practical models for children—pictured in smart fabrics and sewing. Book Fifteen cents. Pattern Fifteen cents. Twenty-five cents for both when ordered together.

Address orders to the Daily Sun, Pattern Department, 243 W. 17th St., New York, N. Y.

TAXES

(Continued from Page One)
was made in a letter to the president dated August 10 which read, in full, as follows:

"At your request the treasury department since adjournment of congress has been giving careful attention to the adequacy of the tax structure to meet the revenue needs of the government and generally to the desirability of additional tax legislation."

"We have reached the conclusion that no new taxes and no increases in present tax rates are necessary. Due to the continued improvement in business conditions the yield of existing taxes is steadily increasing."

Roosevelt Starts Tour.
WASHINGTON, Aug. 13.—(P)—President Roosevelt left the capital shortly after 9 a. m., Central standard time, today on his flood-area inspection tour into Pennsylvania and New York.

Surprise Conference Called by President
WASHINGTON, Aug. 13.—(P)—President Roosevelt called two congressional leaders into a surprise conference this morning before setting out later in the day to see for himself what flood prevention steps are needed in Pennsylvania and New York.

Whether Mr. Roosevelt's morning talk with Chairman Harrison (D-Miss) of the senate finance committee and Doughton (D-NC) of the house ways and means committee had any connection with flood problems was not known, because the purpose of the conference was not disclosed.

The fact that both the Harris and Doughton committees deal with taxes gave rise to some suggestions that the President wanted

to talk over regulations for the enforcement of the tax bill passed at the last session of congress. The treasury is now drawing up rules for the collection of the taxes including the new 7 to 27 per cent levy on corporation profits which are not paid over to shareholders as dividends.

A late afternoon session at Johnstown, Pa., where damage estimated at \$28,000,000 was caused by a St. Patrick's day flood, was the first on the President's three day trip.

Coughlin
(Continued from Page One)
"My reference in the same letter to the 'Stockyards of Chicago' was in the same sense."

The priest said the fact that President Roosevelt would arrive here tomorrow for his convention opened, "is just news to me. It will make no difference to the convention that the President is visiting here. Our people have come from many states to put the National Union on record. As far as I know the President comes to visit Cleveland and to discuss such subjects as farm relief and conditions of Ohio."

He was insistent that no coalition of the Union with the Townsend or "Share the Wealth" movements was contemplated.

"There is absolutely no chance

RESCUED

(Continued from Page One)
speed and giving voice to his hopelessness.

At 7:50 a. m. today final rescue was effected.

Roberts and his son were recuing the well on the T. E. Futch farm, a few miles west of where they live near the Sowers community.

IRVING, Aug. 13.—(P)—Ed Roberts, about 50, trapped in a well bottom, stared into the eyes of death for nearly 18 hours while fire department pumpers fought a steadily rising stream of water.

He was semi-conscious when a final desperate effort of workmen freed him today. Physicians rushed him to a Dallas hospital for examination and treatment.

Mrs. T. E. Futch said Roberts was endeavoring to clean an old well on the Futch farm five miles west of here yesterday afternoon. He took rocks and dirt from under a new brick rim recently built, she said, and a cave-in resulted, burying him to the shoulders.

Waters began rising rapidly. Fire apparatus hurried to the scene from here and Dallas and battled with the increasing flow to keep Roberts from drowning.

Manfield Withdraws.
BOSTON, Aug. 13.—(P)—Mayor Frederick W. Manfield of Boston announced today his withdrawal from the race for the Democratic nomination for United States senator.

for an alliance with other groups, he declared. "If the Union does not retain its own identity, I shall step out. It must remain just as it is."

FACE ALL THE FACTS—

AND YOU'LL CHOOSE A FORD!

ECONOMY

10% to 15% more miles per gallon... That's what today's stock Ford V-8's are showing over previous Ford V-8's in public gasoline tests now being run by Ford Dealers. The test cars are equipped with a see-for-yourself glass gallon jug so that you can check the results. We invite you to make a test run with us.

YOUR FORD DEALER

Many owners report no oil added between regular changes. Low delivered prices. Exchange parts plan greatly reduces upkeep cost.

PERFORMANCE

85 horsepower, with the thrilling "feel" of V-8 smoothness and pick-up.

Centerpoise Riding Comfort—springbase almost a foot longer than wheelbase with all passengers seated forward of the rear axle.

Unique Roadability—Torque-tube drive, radius rods front and rear, free action on all four wheels.

Easy Handling—Shockless steering, easy-acting brakes and clutch, silent helical gears in all speeds.

VALUE

Only V-8 car below \$1645. (The other 8 American V-type cars cost from \$1275 for V-12 Lincoln-Zephyr up to \$6750).

More braking surface for car weight than any other car below \$3195.

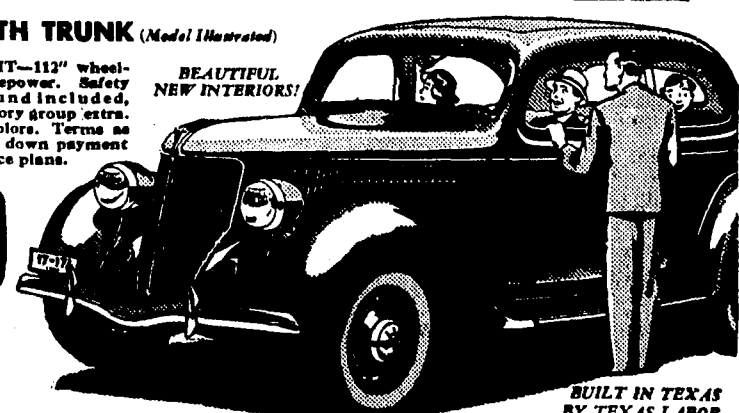

Fine-car engineering—Centriforce Clutch, mirror-polished cylinders, (no "breaking in"), 4-floating rear axle, and many other features.

Safety Glass all around at no extra cost. Welded steel body structure. Separate luggage space. Large tires.

TUDOR SEDAN WITH TRUNK (Model Illustrated)

\$545 F.O.B. DETROIT—112" wheelbase, 85 horsepower. Safety Glass all around included. Choice of 3 colors. Terms as low as \$25 a month after usual down payment under UCC 1/2% a month finance plan.

City.

Dear Wayne---

There are deplorable conditions which exist in the administration of justice, criminal and civil, in this County, which require no elucidation.

To my mind, the election of a district judge to serve this district for the next four years is of vital importance to every citizen thereof.

Since my elimination from the race, I have had no hesitancy in expressing my support for you because I sincerely believe in your honesty and in your ability.

If I can be of any assistance to you, do not hesitate to call upon me and please feel at liberty to use my name whenever you feel it may be of assistance.

With best wishes, I am

Sincerely your friend,

(Signed) A. P. MAYS.

SLICED FORTUNES

John D. Rockefeller Jr., agrees with J. P. Morgan that America's huge private fortunes are disappearing. As for the time limit predicted by Morgan—thirty years—Mr. Rockefeller says, smiling:

"Really I can only guess about that. But I will say that I think Mr. Morgan was very, very conservative. He gave our fortunes a long time. Yes, he was very conservative don't you think?"

Figures presented by the International Revenue Bureau, however, show that there were more millionaires in 1935 than in 1934, although far fewer than in the 1928-29 period. A millionaire is defined as an individual whose annual net taxable income is \$100,000 or more. According to income tax returns there were 1,930 of them in 1934, and 2,500 in 1935. Their income from dividends and interest had increased nearly 25 percent.

Although that doesn't look much like vanishing wealth, the Morgan and Rockefeller opinions probably are based on the expected results of the new state taxes. Such taxes yielded \$140,000,000 in 1934 and \$218,000,000 in 1935. They will continue to take sizeable slices out of the huge private fortunes existing today.

RELUCTANT SOLDIERS

The British war office is disturbed by the indifference of eligible young men to enlistment in the military forces. Unless some remedy is discovered, an official says, the government will eventually face the difficult choice between conscription and vast piles of weapons with nobody trained to use them.

Great Britain learned not many months ago that she couldn't call Mussolini's bluff because she wasn't so well prepared for a fight as Italy. Since then the situation throughout Europe has grown rapidly worse, and Great Britain has decided that she must increase her defenses and her military forces swiftly.

With their government preparing vigorously for war possibilities, why are the recruits so shy? It can hardly be set down either to cowardice or to lack of patriotism. Neither is it likely that the young men of England are ignorant of the mounting crises on the European continent. It is possible that the young men hope greatly for a more peaceful solution of the world's difficulties, or that they are standing by their anti-war votes of last year. It is one of Einstein's beliefs that if all the eligible "cannon fodder" of the world refused to enlist and fight, there could be no war. But such an end to the world's bickering is impossible without more enlightened statesmanship and greater public understanding.

LIVE HAT-TRIMMING

A Florida milliner is said to be using air plants for hat trimming instead of feathers. They are a hardy variety of wild orchid which grows abundantly throughout southern Florida.

Once on the hat, the orchid is kept alive by an occasional small drink of water administered with a medicine dropper. Properly cared for, it grows just as well on as a hat on a tree.

Perhaps the next development will be bright-plumed birds alive in millinery cages.

JUST FOLKS

(Copyright, 1935, Edgar A. Guest.)

THE CROW
The noisy crowd begins to boast its many crimes and sins
And standing on the topmost tree
Proclaims his pilferings to me.

This inky pirate of the sky
Disturbs my slumbers with his cry
And deeper stains his thieving
breed
By robbing me of sleep I need.

Still as I hear his raucous call
I'm well contented, after all,
For silence from the row attests
That he is robbing worthier nests

I watch his kindlier neighbors fly
In terror when a crow draws nigh
And hasten home their young to shield
Against this vandal of the field.

Why must the happy song birds
know
So fierce an enemy as the crow
And why should crows their skill
employ

Always to ravage and destroy?
Male citizens of San Saba, Texas,
must not shave until after
July 14, date of the state peacan
growers' convention and a beard
contest. A city ordinance decrees
no shaves until then.

Ida Lupino is planning a trailer
trip into Mexico.

THE NEXT OLYMPICS.

Finland and Japan each wanted to be host to the next Olympic Games. Japan won the prize. One of the deciding factors was Japan's generous offer of a transportation subsidy of a million and a half yen (about \$485,000) to offset costs of traveling in the Far East. The Japanese are also a warmly hospitable people, and they take the Games very seriously.

Finland's bid was based on a spiritual plea, which the Olympics committee was not ready to heed. Finland asked earnestly for a return to the classic simplicity of the original games in place of the pomp and ceremony, flag-waving, saluting, and costly equipment which are so conspicuous in Berlin. The games, urged Finland's representative, have been "getting out of hand."

Many athletes and many of their supporters have been feeling uncomfortable under the elaborate accompaniments of the current games. They have felt that the intended good-will and friendly competition have been lost in the multiplicity of extras and the intensity of national rivalries.

The case which Finland stated needed to be heard. If the games continue, it will probably be because of such a change. The Japanese themselves may accomplish something along this line because of their natural taste and tact.

THE VIMY MONUMENT

The other day King Edward of England, in the presence of a great throng of Canadian and French citizens and war veterans, dedicated a beautiful monument on Vimy Ridge to the memory of the Canadians who died in the World War. France has decreed that the land on which the monument stands shall be Canadian soil. The English king spoke simply and beautifully of the monument of affection and honor in which those soldiers will forever be enshrined. But the most important word spoken at the exercises came in the message sent by Prime Minister MacKenzie King of Canada. He wrote: "A world at peace, Canada believes, is the only memorial worthy of the valor and the sacrifice of all who gave their lives in the World War."

The beautiful monuments of stone which have been erected in many towns and on many battlefields may all be destroyed by shells and bombs if another war comes. The monument of a "world at peace" is the hardest of all to build, but some day it must be built.

KEEPING WARM

Has it been hot enough for you? The menfolk, as one man, answer yes, indeed it has. But women are funny that way. When the thermometer gets right around a hundred they like to add to the joy of life by going downtown and trying on fur coats. They'll keep warm all next winter wearing the coats and their husbands will keep warm hopping around all next winter to pay for them. Well, maybe after all that's fair enough. At least it was, and will be warm enough for both of them.

SHELL GAME---SPANISH STYLE

By Chamberlain

TIMBER VANISHING

American timber news is good or bad, according to whether you take a short or long look. Lumber production is reported so great in the South, that if the present rate of cutting is continued, experts say that source will be depleted in seven years. In the country as a whole, lumber is being consumed now at 150 percent of the rate of new growth. Thus it wouldn't take many years to produce a lumber famine.

A business writer, interested in conserving the supply, wonders if it wouldn't be a good thing to import Russian timber and store it against the time of need. His idea is to take the timber in payment for capital of many kinds that Russia needs, and apparently would like to buy from us, but lacks cash to pay for.

It might be a good plan, in theory. But practically it would be hard to accomplish in a country where so many interests fight against imports from self-interest or on general principles.

LUGGAGE TRAILER

Not all the automobile trailers are to be houses on wheels. One concern which began the manufacture of "utility" trailers only a short time ago finds the demand for them rising. Salesmen use them to haul samples. Farmers and contractors use them to haul various supplies and materials. Dog breeders are using them to deliver dogs. Travelers haul camping and sleeping equipment in them. The manufacturer says this type of trailer has the same relationship to the automobile as a baggage car has to the passenger coaches of a train. He believes that in time every motorist will want such a trailer as a matter of course and will buy it along with his car.

Obviously it is more limited in usefulness than the house trailer or the land yacht, but that means it will cost a great deal less than either of these vehicles.

Reassuring word from Washington: "I believe this campaign will be one of the highest type of campaign either party has conducted," says Eugene Meyer, publisher of the Washington Post.

The more highbrow novelists analyze and explain life the less everybody understands it.

Everybody's against monopoly, until it comes to his.

ALLEN PARSONS IS BURIED ON TUESDAY AT PRAIRIE POINT

Funeral services for Allen Parsons, aged 32 years, 1200 West Thirteenth avenue, who died in the P. and S. Hospital Sunday night from pistol wounds, were held Tuesday afternoon at 2 o'clock from the chapel of the Corley Funeral Home with interment in the Prairie Point cemetery. The rites were conducted by Rev. E. B. Clark, pastor of the North Corsicana Methodist church.

Surviving are three sisters, Mrs. Maggie Simpson, Anson; Mrs. Ruby Ford, Austin, and Mrs. A. D. Andrews, Corsicana.

PIONEER WORTHAM WOMAN DIED THERE ON MONDAY NIGHT

WORTHAM, Aug. 11.—(Spl.)—Mrs. Lusk Cashion, aged 62 years, died at her home here Monday night following a brief illness. Funeral arrangements had not been completed at noon Tuesday awaiting arrival of relatives, but it will probably be held Tuesday afternoon at 6 o'clock from the home. The rites will be conducted by Rev. T. S. Ogile. Burial will be in the Wortham cemetery.

Mrs. Cashion was a pioneer resident of this community, having come here from Mississippi when a small girl.

Surviving are her husband, five sons, Walter Cashion, Wortham; Joe Bailey Cashion, Wortham; Conrad Cashion, Wortham; Archie Cashion, Houston; Rethel Cashion, Teague; three daughters, Miss Jessie Bell Cashion, Wortham; Mrs. Ruby Roland, Houston; Mrs. Trudie Moore, Houston; three sisters, Mrs. Carrie Calhoun, Teague; Mrs. Emma Calhoun, Fairview; and Mrs. Katie Calhoun, Oklahoma, and other relatives.

FORMER POPULAR CORSICANA RESIDENT VISITING IN CITY
Arthur Jones, former pioneer of Navarro county but for the past 21 years residing in Uvalde, is visiting in Corsicana for a few days and greeting his many old-time friends here who are very glad to see him and to note that time has dealt kindly with him. Mr. Jones, prior to leaving Corsicana, had been a city mail route carrier in this city for 21 consecutive years. Already having a wide acquaintance in Corsicana and over the entire county, he grew to know practically every man, woman and child in the city due to his postal position.

Mr. Jones makes his home in Uvalde and resides directly back of Vice President John N. Garner, with whom he is well acquainted and is an ardent admirer.

This is Mr. Jones' first visit to his old home town in seven years and he will be here until Saturday.

PURDON HAMMERED OUT A 19-0 COUNT AGAINST PURSLEY

JOHNSON OF PURDON LIMITED PURSLEY TO A COUPLE OF BINGLES

With Johnson allowing only two hits Sunday afternoon, the Purdon contingent shutout their rivals, the Pursley crew, 19-0, by hammering out 30 base hits. The game was played at Pursley. The lead-stepping Purdon infield played airtight baseball while the Pursley defense faltered frequently.

Neely, shortstop, and Phillips, first base, led the swat-feet with five hits each. Three of Neely's clouts were two-baggers, and one was a triple. C. Boldin hit two home runs.

FUNERAL SERVICES FOR V. A. BOYD ON MONDAY AFTERNOON

Funeral services for V. A. Boyd, aged 60 years, who died at his home, 1502 West Collin street, Sunday afternoon at 6 o'clock, were held Monday afternoon at 5 o'clock from the First Baptist church with interment in Oakwood cemetery. The rites were conducted by Rev. Joe E. Glenn, pastor of the Eleventh Avenue Baptist church.

Surviving are his wife, two sons Earl Boyd and Fullwood Boyd, both of Corsicana; a daughter, Mrs. Russell Purifoy, Corsicana; two sisters, Mrs. V. A. Boyd and Mrs. Reola Lawson, both of Corsicana, Ark.; mother, Mrs. R. A. Boyd, Cornersville, Ark.; four brothers, Ira Boyd, Mildred; Ernest Boyd, Harlingen; and Nay Boyd and Ano Boyd, both of Arkansas.

Palbearers were Billie Johnson, Sam Stokes, Vogel Fullwood, Travis Fullwood, Barto Fullwood, Ernest Fullwood and W. A. Fullwood, Dallas.

Sutherland-McCammon Funeral Home directed the arrangements.

FORMER CORSICANA RESIDENT IS BURIED HERE ON TUESDAY

Funeral services for Robert William Wilder, aged 36 years, former resident of Corsicana, who died in Dallas Monday morning, were held Tuesday afternoon at 3:30 o'clock from the chapel of the Corley Funeral Home with interment in Oakwood cemetery. The rites were conducted by Rev. Joe E. Glenn, pastor of the Eleventh Avenue Baptist church.

Surviving are his wife, Dallas; parents, Mr. and Mrs. J. A. Wilder, Corsicana, and a brother, K. R. Wilder, Corsicana.

Palbearers were Lloyd Sears, W. M. Garlington, J. R. Bush, Herbert Lewis Hill, Edward L. Blansitt and J. C. Miller.

Mildred Baptist To Hold Revival

Beginning Wednesday night, Aug. 12th and running through Sunday night, August 23rd the Mildred Baptist church will hold its annual church revival. Rev. Charles L. Cockrell, well known young minister to Corsicana and vicinity will do the preaching. Rev. Cockrell is one of Texas' fastest growing and coming preachers. The singing will be led by the pastor. All adjoining communities are invited and urged to attend. Bring your friends.

Oklahoma Crop Conditions Have Grown Serious

OKLAHOMA CITY, Aug. 11.—(AP)—All of Oklahoma was within the federal emergency drought area today and crop conditions were growing more serious as the state experienced another day of record-breaking heat in which five persons died.
Plans were made in Western Oklahoma by ministers of five churches to hold a county-wide meeting at Mangum tomorrow to pray for rain.
Total deaths from the heat since July 13 stood at 93.
July was the hottest month on record, with the exception of July, 1934, and Kenneth D. Blood, crop statistician, but yesterday saw the mercury climb to 118 degrees at Holdenville and Muskogee for new all-time highs.
Blood's crop report as of Aug. 1 showed conditions of corn, and grain sorghums declining but they had not yet reached the low condition of two years ago.

DALLAS, Ga., Aug. 11.—(AP)—Sheriff Frank Couch said Harry Howe, accused of the shotgun killing of his wife April 26, was slain by two of her brothers today on the way from jail to the court house.

The brothers, Ward and Pence Brown, were arrested.
Howe was to have gone to trial today on a murder charge for the killing of his wife. Her body, only partly clothed, was found in the woods April 27 beside a motor truck which officers said was registered in the name of her husband.

A son of Howe testified before a coroner's jury that his father told him:
"I killed Hattie. Get in touch with my lawyer. You'll hear from me in 15 to 30 days."
Howe was arrested in Chicago a month ago.

WHAT DO YOU KNOW ABOUT FUNERAL COSTS?
In serving the people we recognize no social or financial barriers. Our service is based upon ethical practices and a price-fairness that every family should know about. You can make sure of this important fact. Our services are not beyond the reach of any family in humble circumstances. If you would settle the question forever in your mind and make certain that you will not, in an emergency, make the wrong choice, send for our booklet—"Your Right to Know." It will do for you what it has done for others—bring you peace of mind upon an important subject.

QUESTIONS THAT ARE ASKED ABOUT BANKING
"What is the purpose of a Bank's statement of condition?"
The purpose of a bank's statement of condition is to give to the proper federal or state banking authorities, and to customers and the public, a report of the financial condition of the bank. Our latest bank statement lists our assets and liabilities, showing what we do with our depositors' and stockholders' money.
Part of the money is set aside to maintain required legal reserves. A reasonable amount of cash is kept on hand to meet the daily business requirements.
Under normal conditions much of our deposits goes into active business use. A part is loaned to individual customers and well-managed business enterprises which help the general business life of this community. A part goes into government bonds and other sound readily marketable securities.
We invite you to read our latest statement of condition. A copy will be sent you on request.

FIFTEEN WORKERS CHARGED CONTEMPT OF COURT JAILED

SAN ANTONIO, Texas, Aug. 13.—(P)—Fifteen workers at the Dorothy Flocks plant, and members of the International Ladies Garment Workers union, on strike since May 6, began serving jail sentences ranging from one to ten days after the fourth court of civil appeals had held them in contempt of court for overstepping limits on picketing set by Judge S. G. Taylor's injunction. Manuel Cardenas, found guilty of violating the injunction on four counts, faced ten days in jail, and Mrs. Merle Zappone, executive secretary of the union's local branch who was found guilty on five counts, was facing eight days in jail.

MAN WHO KILLED JAP SWEETHEART HAS SURRENDERED

LOS ANGELES, Aug. 13.—(P)—Ray Johnson, sought by police in the death of Miki Takaoka, Japanese actress, was arrested today, in Corona, Calif., police here were advised today.

Johnson was reported to have walked up to two Corona police officers, Eugene Ward and J. Jones, and said: "I want to give myself up. I killed my Japanese sweetheart in Los Angeles. I am Ray Johnson."

Capt. Bert Wallis of the police homicide squad, before leaving for Corona to return the man here, said he was informed by Corona police that the suspect had made a six-page confession.

A first-degree murder complaint was issued against Johnson yesterday.

JURY TENTATIVELY SELECTED TRY TWO DOCTORS FOR MAYHEM

SAN FRANCISCO, Aug. 13.—(P)—Eight women and four men were tentatively on the jury today which will try two physicians charged with mayhem in connection with the sterilization of Ann Cooper Hewitt.

The heiress to the Peter Cooper Hewitt estate, variously estimated at \$1,300,000 to \$10,000,000, who charged her mother, Mrs. Maryon Cooper Hewitt, tricked her into the sterilization operation, is expected to testify against Dr. Tilton E. Tillman and Dr. Samuel G. Boyd. The penalty for mayhem is one to 15 years.

Miss Hewitt filed suit several months ago seeking \$500,000 from mother and the physicians asserting her mother plotted the sterilization operation in an attempt to gain personal possession of the Hewitt estate. Subsequently criminal charges were brought by police.

Fisherman Tells Of Catching Two Bass That Struck at Once

PALESTINE, Aug. 13.—(P)—Sid White, oil drilling company employee, incurred the jealousy of local fishermen by telling of two bass who struck simultaneously and were hooked during a recent fly fishing expedition.

White said each weighed about a pound. He said the dual catch was made in a private lake in Henderson county.

SEPTEMBER 4 IS CLOSING DATE FOR LIVESTOCK ENTRIES

FORT WORTH, Aug. 13.—(P)—Closing date for entries to the Frontier Centennial livestock show is September 4.

Exhibitors who expect to compete for the \$75,000 being offered by show officials must have them in the Fort Worth office or have them in the post office not later than September 3, says D. G. Talbot, manager of the livestock department. The show will get under way October 3, and last through until October 11.

Classes have been provided for breeding Herefords, shorthorns and Aberdeen-Angus cattle; carloads of fat steers and carloads of feeder cattle, dairy cattle, sheep, goats, swine, draft horses, mules, jacks, jennets and agricultural exhibits.

Fort Worth Man Was Killed on Highway

COMANCHE, Aug. 13.—(P)—D. T. Muse of Fort Worth was killed late yesterday on Highway 10, seven miles from Comanche. He was said to have been struck while fixing a flat tire on his car.

The driver of the other car was cut and bruised and was given hospital treatment at Stephenville. Muse's body was held here pending instructions from his children in Oklahoma.

Start Civil Service For Pension Workers

AUSTIN, Aug. 13.—(P)—Orville S. Carpenter, director of the Texas Old Age assistance commission announced today institution of a civil service examination system in the pension organization.

"The first step in this program is the holding of examinations for people now employed by the commission," Carpenter said. "No new appointments will be made, and the examinations will not be open to anyone except present employees."

The first examinations will be in Houston Saturday for investigators in the Houston district, comprising Harris and twelve other counties. Carpenter said the

OPEN AIR REVIVAL OF C. P. CHURCH IS GROWING NIGHTLY

The open air gospel meetings conducted by the Cumberland Presbyterian church at the vacant lot, corner of Fifteenth street and Ninth avenue will likely continue through next week. Rev. N. A. Woychuk, preached last night on the subject, "Christ or the Fifth of Satan."

Can we serve God in sincerity and in truth and indulge in the many things of the world? It is impossible to serve two masters at the same time. Either serve God or Satan and play not hypocrite in the church.

Many decided to live out and out for Christ and were aroused to preach and to let their lights shine for Christ. The request, after the service was over, was to continue the services through next week as we just really got started.

Sheriff's Office.
A typewriter stolen from the office of G. H. Brown, county school superintendent, more than a year ago was found by a small son of Joe Redders at 1913 West First avenue late Wednesday. The machine had been in a patch of weeds and much of the rubber mountings, etc., had been damaged by the elements. The finding of the machine was reported to Deputy Sheriff Jack Floyd, who returned it to the courthouse Thursday morning.

A 1930 Model A Ford coupe was stolen from E. E. Payne Tuesday night and was found abandoned near Malakoff Wednesday. Local officers are of the opinion that the Oklahoma fugitives who are sought in connection with the theft of an office car in Henderson county abandoned the Payne car from Corsicana, Tuesday night.

Justice Court.
One was fined on a drunkenness charge by Judge M. Bryant Wednesday.

Two were fined on drunkenness complaints by Judge W. T. McFadden.

Card of Thanks.
We wish to express our appreciation to the many kind friends for their help, sympathy and beautiful floral offerings during the illness and death of our husband and father. May God bless you all.—Mrs. Jesse Speed and Children.

Officers Probing Theft Tax Money

PORT ARTHUR, Tex., Aug. 13.—(P)—Officers said today they were investigating the alleged theft of about \$1,100 from the safe of the Port Arthur branch of the county tax assessor-collector's office.

They said three boxes stored inside the safe were found missing a week ago.

BOY SCOUTS WILL SPONSOR FAIR AND SERIES CONTESTS

The Corsicana Boy Scouts plan to sponsor a county fair and series of contests to be held in the vacant building in the middle of the block on North Main Street between Fifth Avenue and Collins, Aug. 27, 28 and 29. Details are to be handled by the Robinson Dramatic Co., of Tyler.

There are to be exhibits of canned goods, fancy work, and clothing, or any other articles of interest. Also, there are to be 16 contests, including Shirley Temple and Jane Withers judging, yo-yo, rope jumping, a baby show, bicycle race, tricycle race, most freckled faced boy, red headed girl, whistling, tapping, doll revue, apple eating, 42 party, pet parade and twin contest.

Registrations are to be handled by Mrs. W. O. Lane, 315 North Beaton street.

Candidates Take Notice

The 4-H Girls of Powell are sponsoring an ice cream supper Friday night, August 14th on the vacant lot joining the Conoco filling station in Powell. Everyone is invited to come. We are extending a cordial invitation to all the candidates.

BANK CLEARINGS IN LARGER CITIES FOR PAST WEEK LARGER

NEW YORK, Aug. 13.—(P)—Bank clearings in 22 leading cities totalled \$4,785,771,000 in the week ended Aug. 12 compared with \$4,545,189,000 in the same week last year, an increase of 5.3 per cent. Dun and Bradstreet reported today.

The increase this week compared with a decline of 2.6 per cent in clearings last week compared with a year ago.

At New York City clearings fell to \$2,874,301,000 from \$2,937,

\$93,000 a year ago, a decline of 2.2 per cent.

The total of \$1,911,470,000 for outside centers represented a gain of 18.9 per cent over last year's total of \$1,607,298,000.

Principal gainers outside of New York were San Francisco 33.5 per cent, Seattle 30.8 per cent, Detroit 38.3, Atlanta 24.1 and Buffalo 30.6.

Adopted Daughter First President Of Texas U. in Austin

AUSTIN, Aug. 13.—(P)—Mrs. Anna Allen Wright of Goose Creek, adopted daughter of Dr. Ashbel Smith, first president of the University of Texas, today helped the university observe his birthday.

Mrs. Wright visited the Littlefield home, where Dr. Smith's papers were displayed, and was received by Dr. H. V. Benedict, president of the university, and representatives of the university centennial exposition.

From the home she went to the state cemetery where she and Dr. Benedict placed wreaths on Dr. Smith's grave.

PIONEER ATTORNEY DIED WEDNESDAY AT MANITOU, COLORADO

FUNERAL SERVICES FOR
JUDGE J. F. STOUT EXPECT-
ED BE HELD FRIDAY

MANITOU SPRINGS, Colo., Aug. 12.—(P)—J. F. Stout, 90, retired county judge of Corsicana, Texas, died at his summer home here last night. Death was attributed to the infirmities of old age.

Burial will be in Corsicana. Definite funeral arrangements have not been made.

Judge Jesse F. Stout, aged 90 years, long prominent in political and legal affairs of Texas and Navarro county, died Wednesday morning at 1 o'clock at his summer home in Manitou, Colo. "The body will arrive here Friday morning and funeral services are expected to be held sometime Friday although definite time for the rites have not been determined.

Judge Stout, dean of the Navarro County Bar association, ex-mayor of Corsicana, a former member of the Texas Legislature and former county judge of Navarro county, was born in Wilkes county, North Carolina, Feb. 6, 1846. He moved to Texas, in October, 1871, and became a resident of Corsicana in 1872 where he has resided since that time with the exception of four years spent in Raleigh in western Navarro county, one of the leading settlements of the county outside of Corsicana in the early history of the county.

Taught School
Judge Stout taught school in the county for several years and was admitted to the practice of law in 1878. He became a leader among members of the Navarro county bar, one of the most famous in the early history of Texas, for almost a half century. Judge Stout retired in 1925.

Among the high ranking attorneys who were members of the early Navarro County Bar association included Simkins and Simkins, Read and Read, Bullock and Bullock, E. B. and Lee, H. A. Halbert, John D. Lee, Bright and Forman, Horeley, J. M. Clouting, Wm. Croft, Chas. W. Croft, Rufus Hardy, R. S. Neblett and others.

Stout and Collins streets were paved during his administration as mayor of Corsicana from 1890 to 1892. These were the first streets paved in this section of Texas. The paving consisted of a bed of concrete base with a cushion of sand between the blocks and concrete. This paving remained in constant use until 1917 and when removed was in excellent condition. Some of the old paving on Collins street was not removed until a few years ago. The candidacy of Judge Stout in the mayoralty contest was based on "lifting the business district out of the mire."

Member Legislature.
Judge Stout was in the Texas Legislature from 1882 to 1884 and served with distinction. He was county judge of Navarro county from 1890 to 1900 and gave of his best talent and loyalty to his constituents.

Although a "teetotaler," Judge Stout was an outspoken opponent of prohibition and declared that it could not be successful or enforced during the years when prohibition was a paramount political question. His views did not change after the Volstead and other prohibition measures became operative.

Judge Stout was a faithful member of St. John's Episcopal church and contributed liberally to its different activities and departments. He was a member of the United States Grand Lodge and was honored on his 90th birthday by delegations from the bar association and the Masonic Lodge calling on him.

He was married to Miss Anna V. Green in 1882, who survives. One daughter, Mrs. Wilbur A. Wright, and three granddaughters all of Corsicana, also survive.

Sutherland-McCammon Funeral Home will direct the funeral arrangements.

**UNITED STATES IS
NEUTRAL OBSERVER
OF SPANISH ROW**

STRICTLY HANDS-OFF POL-
ICY OUTLINED BY AMERI-
CAN GOVERNMENT

WASHINGTON, Aug. 12.—(P)—The state department's declaration of America's intention not to intervene in the Spanish revolutionary crisis was followed today by a statement that the United States is being kept closely informed of the French government's efforts to organize an international neutrality compact.

This information was issued in the nature of a clarification of persistent reports from abroad that France had sounded out this government on the possibility of United States participation in such an agreement.

It was stated officially that France had neither asked nor been given this nation's views toward the project.

The first official expression of policy since the opening of the Spanish rebellion came last night when Acting Secretary William Phillips made public instructions he said had been sent to all United States government representatives in Spain.

Phillips emphasized that the government will "scrupulously refrain from any interference whatsoever in the unfortunate Spanish situation."

He disclosed that the entire statement of policy had been read to unaffiliated aviation company representatives who had sought the state department's advice on the question of selling planes to Spaniards.

The inference was clear that while the United States neutrality law does not ban the sale of implements to forces involved in a civil conflict within one nation, the government intends to discourage such activities.

Judge Stout Dead

Prominent in the affairs of Corsicana and Navarro county for many years, Judge J. F. Stout died at an early hour Wednesday morning at his summer home in Manitou, Colorado. Although definite funeral arrangements have not been completed the services are expected to be held in Corsicana sometime Friday.

TRAFFIC CONTROL SYSTEM PLANNED TO MAKE AIRWAYS SAFER

WASHINGTON, Aug. 13.—(P)—Seeking to make the airways safer, the bureau of air commerce will institute a new system of aviation "traffic control" Saturday. Designed to guide planes flying a countrywide network of "arterial air highways," officials said today, the new regulations will fix altitudes at which the craft must fly. They will also set up standards for "blind flying" by operators of private planes.

Already, the bureau has established "traffic control" stations at the Newark, Cleveland and Chicago airports. It is planning others at Detroit, Pittsburgh, Washington, Los Angeles and San Francisco. These stations will keep track of all planes moving over the airways and may issue radio orders for changes of speed and direction to insure a smooth flow of traffic with maximum safety.

BUSINESS MAN OF NEW MEXICO HELD AS ESCAPED CONVICT

EL PASO, Aug. 13.—(P)—A Hot Springs, N. M., businessman awaited today the arrival of an Oklahoma officer sent to return him to Oklahoma on charges of being an escaped convict.

Joe Lewis, operator of a bottling works in the New Mexico City, said there has been a terrible mistake somewhere when he was arrested and placed in jail here yesterday. Captain of Detectives W. C. Woolverton said "Joe Lewis" was William Birchfield, who escaped from an Oklahoma prison in 1923 while serving a 10-year robbery sentence.

Officers said Lewis fingerprints matched those of Birchfield. As prominent Hot Springs resident, Lewis said he had never been in trouble in "Oklahoma or any other place." He said he had been in New Mexico 15 years.

Gov. E. W. Marland signed a requisition for Birchfield's return and state officer Bob West was sent after the man.

Convicted of \$3 Robbery.
CHICKASKAW, Okla., Aug. 14.—District court records here today showed that W. L. Birchfield believed held in El Paso, Texas, as fugitive from McAlester penitentiary, was sentenced to 10 years in prison for a \$3 robbery near here July 29, 1923.

Birchfield was listed as an escaped convict when he failed to return to prison after a leave of absence in 1923, assistant Warden Jess Dunn said today.

**Texas AAF Tennis
Tournament Drawing
State's Net Stars**

FORT WORTH, Aug. 13.—(P)—From all sections of the state scores of champion tennis players are moving into Fort Worth today for the Texas Amateur Athletic Federation's tournament which opens at Sycamore Park's eight courts at 10 a. m. Friday.

Drawing for positions in all seven divisions is scheduled for 5 p. m. today at the recreation department, with Houston, San Antonio, Waco, Dallas, Austin and Wichita Falls sending full teams of 10 and 12 players the tournament directors feel sure they will have approximately 100 entries.

Ahile, San Angelo, Denton, Baird and other cities are sending from two to four players. Only those who have qualified as city champions in public park play are eligible to compete for this state championship.

**Highway Opening
Is Celebrated**

RAYMONDVILLE, Aug. 13.—(P)—The Chamber of Commerce and service clubs entertained at luncheon today similar organizations from the lower Rio Grande valley celebrating opening of the new highway from here to San Manuel.

Mayor Howard Campbell welcomed the visitors. The new highway saves 15 miles for valley motorists wishing to reach out of valley points.

**Candidates Take
Notice**

The 4-H Girls of Powell are sponsoring an ice cream supper Friday night, August 14th on the vacant lot joining the Conoco filling station in Powell. Everyone is invited to come. We are extending a cordial invitation to all the candidates.

MAJOR PROJECT FOR PROTECTION WATER SUPPLY COMPLETED

WORK REPRESENTS THE EX-
PENDITURE OF NINETY-ONE
THOUSAND DOLLARS

By CHARLTON GUNTER

Supplying the need of additional protection of the City of Corsicana's \$750,000 water supply and pumping plant that had existed for several years and also taking a large stride toward proper development of the municipal property southeast of the corporate limits as a recreational center and scenic drive, two Works Progress Administration projects have recently been completed after about eight months of activity and expenditures slightly over \$90,000.

The major project, the repairing of the main dam at Lake Halbert was started early last fall and continued until shortly after July 1, and resulted in the doubling of the size of the main impounding structure.

The original contract for the construction of the dam was awarded for about \$75,000, and in succeeding years the city spent some \$15,000 in improvements, construction of a breakwater and other similar work. The dam was originally about 2700 feet long, 32 feet high, and some eight or nine feet across the crown, or barely enough for one-way vehicular traffic.

Repairs Imperative
On the project recently completed, the crown of the dam was widened to approximately 20 feet for its entire 2780 feet, and its height increased from 32 to 38½ feet. In some places the original structure had sagged about 4 feet, making the repairs imperative.

Involved in the work on the dam proper was the removal of the heavy ebbing from the east side of the dam, the moving of 70,000 cubic yards of dirt, and the replacing of the sod on the side of the dam away from the lake. Some 3800 cubic yards of large rock was used in riprapping the lake side of the dam to afford protection against the erosive force of the waves.

In addition to the work on the dam proper, approximately 9,000 lineal feet of road was constructed principally along the south side of the municipal water supply, and affording citizens of Corsicana one of their most enjoyable drives, completely transforming a portion of the shore line that in recent years has been almost undeveloped property and virtually impassable because of gullies and ravines.

In constructing the scenic drive it was necessary to move 4,000 cubic feet of dirt, and install 200 feet of half billion dollar pipe culverts with headwalls of native rock and concrete aprons, making the improvements semi-permanent. One seventy-foot timber trestle was constructed at a minimum cost through use of materials salvaged by the city from a fire-gutted building in the downtown section. Some 300 lineal feet of ten-inch cast iron pipe drains were installed to care for small water courses.

Salvaging Timber
City forces are now engaged in salvaging the timber from the breakwater that has been in place in the lake for several years. Portions of the breakwater, which were the moorings and the remainder was badly in need of repairs, and city officials decided to salvage the materials rather than spend several thousand dollars in repairs, indicating that the breakwater was a good investment.

The municipal water supply covers 650 acres, and has a capacity of 100 million gallons. The added height of the dam and the heavy rock protection would be ample to protect the huge investment.

One of the outstanding features of the improvements is the elimination of a large portion of the danger at the hazardous crossing of the road on the south side of the lake at its intersection with the Burlington-Rock Island tracks. Hundreds of yards of dirt were moved onto this section of the road and it is now possible to see a car approaching the crossing from the opposite direction. It was formerly a blind crossing.

A second series of projects were started on the lake property in 1936 and also completed recently involving the construction of a series of low water dams and protective terraces to prevent excessive silting of the lake bed by the erosive action of rainfall on the watershed.

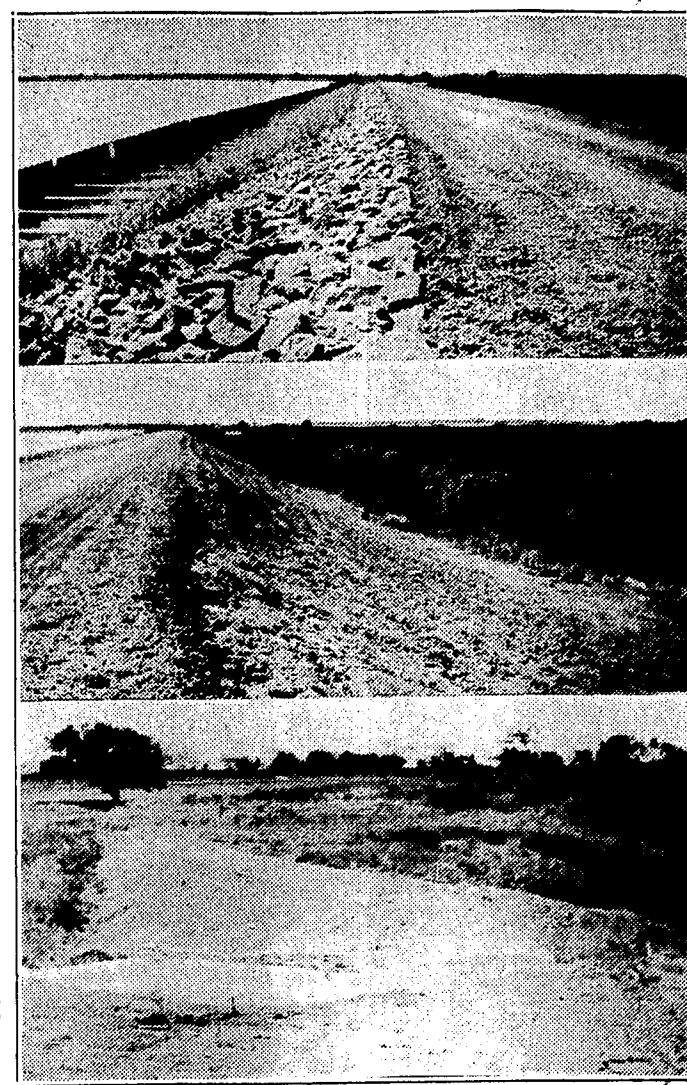

Three large rock filter dams, reinforced with cross-tied piling, wire mesh and cables were constructed across the main drainage channels, and on five lesser channels earthen dams with rock masonry spillways were built. Approximately 1300 cubic yards of rock were used in the construction of the dams and spillways.

To augment the effectiveness of the new construction more than 8,000 lineal feet of terraces were constructed, and some 7,000 willow trees planted along them for additional protection.

Total cost of the project was approximately \$91,000 with the federal government supplying some \$75,000 and the remaining \$16,000 representing the sponsor's contribution or cost to the city.

During the progress of these projects, visiting federal officials were high in their praise of the manner in which the work was being conducted and on the high type of permanent improvements being effected by the city of Corsicana.

NEW LAKE HALBERT IMPROVEMENTS

Top view shows the rebuilt dam at Lake Halbert looking north from the extreme south end, and showing the extensive rock riprapping that was applied as a part of the WPA project recently completed. The wooden breakwater at the extreme left is now being salvaged by city employees.

Center panel shows the east side of the dam away from the water and shows how the structure has been resodded, as well as giving a good idea of the height of the unit.

Lower panel shows one of the low-water structures with its check-dam and native rock and concrete spillway in the foreground and the protective terrace extending toward the upper left corner. This structure is located near the south end of the dam. Several similar units were constructed.

EXCELLENT BUSINESS AIDING OIL INDUSTRY TO FORGET ITS WORRIES OVER FEDERAL PROBES

By ALFRED WALL
Associated Press Staff Writer.

TULSA, Okla., Aug. 12.—(P)—The cheering knowledge that business is good—never better, in fact—served as a ready antidote today for whatever distress the oil industry might be having as the result of the government's intensive inquiry into its practices.

Reports to hand here were of ever increasing consumption of petroleum products. The volume of current business swelled to unprecedented proportions. Reports from government and oil association sources were that in June the demand for motor fuels and lubrication oils was increased 17 per cent and that July would be as big when all the statistics were in.

The demand during the first week of August was unusually good and it was noted that August in the past always has been a month of heavy consumption that either June or July.

The natural gasoline market was rising.

Plan Strong Defense.
While the industry's leaders in the mid-continent wondered just how much further the government would press its inquiry into marketing practices when the Madison, Wis., grand jury reconvenes Aug. 19, indications continued that the firms and individuals already indicted would organize a strong defense.

Counsel for many of the defendants met in conferences at Chicago with Ralph Horween who apparently will be chief of defense counsel.

Horween refused details or to name the attorneys with whom he had conferred, said he "hoped to be able to make a statement in a day or two."

Twenty-three concerns, 61 individual oil executives and three oil trade papers stand indicted for alleged violation of the Sherman anti-trust law through manipulating the price of gasoline in marketing pools. The case will come to trial Dec. 1 at Madison.

Earnings Increase.
One heartening factor in the petroleum picture was the indication that most companies were showing the best earnings in the first half of 1936 for any comparable period since 1929.

In the field, the operators found themselves handicapped by the drought and resultant shortage of water. The Pitts-Jess pool was comparatively inactive because of the drought but J. E. Crosbie, Inc., completed the No.

deducted and on the high type of permanent improvements being effected by the city of Corsicana.

M'DONALD OPENED RUN-OFF CAMPAIGN WITH ADDRESS HERE

INTRODUCED BY POSTMASTER ALLISON LONG TIME
PERSONAL FRIEND

J. E. McDonald of Ellis county, commissioner of agriculture of Texas, opened his second demonstration campaign for re-nomination to his present post here Tuesday afternoon at 4:30 o'clock. His address was delivered at the State National Bank building site and he was introduced by A. M. Allison, Corsicana postmaster, and long-time personal and political friend of the speaker.

Termining his administration as a progressive one and co-operative with the police, etc., of Texas A. and M. College and the national administration, Commissioner McDonald pointed out that much progress had been effected since he became commissioner. He succeeded his present opponent in the run-off, George B. Terrell, after Terrell had served 10 years.

Attacked Terrell's Record.
Characterizing the previous administration of Terrell as a commissioner as unco-operative with A. and M. College and other interests and as accomplishing little for the basic industry of the country, McDonald also attacked Terrell's tenure as a member of Congress the first two years of the Roosevelt administration. McDonald declared Terrell opposed Roosevelt and his recovery program and voted with Republicans against recovery measures. McDonald charged that Terrell was the only democratic member of the House who voted with the republicans against the refinancing of homes and lands program.

McDonald pointed out that he had been called to Washington seven times for conferences on agricultural matters and questions and pledged his continued work and support toward the betterment of the agricultural interests. He declared that he would be re-elected August 22. He said that should Terrell be elected, the republicans would make capital of it and that it would have a national significance in the campaign for the re-election of Roosevelt.

Praised Allison.
The commissioner lauded Allison as his friend and advisor and praised his work in agricultural campaigns several years ago. He thanked the people of Navarro county for the splendid vote given him in the first primary.

The candidate plans a whirlwind campaign into East and Northeast Texas during the next several days. He is slated to speak at Athens, Tyler and other centers Wednesday.

FLAMING WELL GOES ON NEW RAMPAGE AS FLAMES GO SKYWARD

BEAUMONT, Aug. 13.—(P)—The Republic Production Company's flaming Brooks No. 1 oil well went on another rampage early today, causing more dirt to cave in and forcing the flames, which had been shooting 200 feet in the air, to increase their height.

The spectacle lasted several minutes and oil men said it was one of the most impressive sights they had seen. The crater now measures 350 feet across. Fire fighters in asbestos suits were able to creep close enough to see 25 feet into the hole.

Plans continued for the discharging of nitroglycerin in the well late today in an effort to control it. A directional hole also was being drilled from a derrick 750 feet away in another effort to check the well.

The danger of forest fires was renewed yesterday when sparks ignited a wooded section near the well.

Cording to report received from Davidson, Saskatchewan.

Among those showing outstanding promise is a pointer derby, Don Mutt Proctor, recently acquired by A. F. Mitchell of Corsicana.

Mr. Mitchell was recently elected director of the Texas Field Trial Association and is reported taking an active interest in the runnings at the various events.

FLASHES OF LIFE

(By The Associated Press)

What! No Loafing?
NEW ORLEANS, La.—Superintendent of Police George Reyer tells this one on himself:
"Walking along Canal street recently I happened to stop a few minutes at a corner.
"Move on," said a new policeman, "no loafing around here."
"I moved."

Hard-Hearted.
BRAZIL, Ind.—A woman asked "Blind Danny" Baumgart to change a dollar bill.
He handed her the coins. A friend later informed Baumgart "the bill" was piece of bond paper, cut the size of currency.

He Had a Clutch.
EL PASO.—Jasper Cool, 35-year-old negro in the county jail was on a hunger strike and hadn't eaten for four days.
Sheriff Chris P. Fox cut a large watermelon in front of Pools cell and left it within reach. Returning 15 minutes later he found nothing but the rind. Next day the prisoner was eating regularly.

MORAN PUBLICITY BEGINNING WANE; CASE BE SETTLED

BEVERLY HILLS, Calif., Aug. 13.—(P)—Jelly Roll Morton today in Comedienne Polly Moran's little home. Sure, and husband Martin Malone, whom Polly had locked up last July 15, to teach him not to be playing with guns, was nearly square with the law.

It was Polly's story on the witness stand that called back the eaves of the Malone-Moran mansion to the "bloody murder" which summoned sheriff's deputies there a month ago.

When the plump, red-haired screen actress had finished blaming herself as a nagging wife and denying her athletic mate had ever abused her, a felony charge against Malone was reduced to a misdemeanor—"by exhibiting a gun"—and he was granted leave to ask for probation Aug. 26.

Malone, attorney and former collegiate boxer, had been accused of assault with a deadly weapon by officers at the dawn of July 15. They reported they found him waving a pistol which had jammed and they had to clasp handcuffs on him in persuading him to go to the station.

Jittery Miss Moran declared at the time that he came home called "Mr. Moran."

"But I didn't think Marty had to go fighting with me," she added.

FUNERAL SERVICES FOR JUDGE STOUT FRIDAY AFTERNOON

Funeral services for Judge J. F. Stout, aged 90 years, pioneer attorney and political leader, who died early Wednesday at his summer home in Manitou, Colo., will be held from the family home, 502 West Third avenue, Friday afternoon at 5 o'clock with interment in Oakwood cemetery.

Judge Stout was a native of North Carolina, but had resided in Texas since 1871. He distinguished himself as a member of the Texas legislature, mayor of Corsicana and county judge of

Navarro county. During his administration as mayor of Corsicana, the first pavement laid in this section of Texas was constructed of bolts of arch blocks on Beaton and Collins streets.

In addition to his legal, civic and political activities over more than a half century in this city, Judge Stout was an active member of the Episcopal church and Masonic bodies. The Masons will have charge of the rites at the grave.

Surviving are his wife, a daughter, Mrs. Wilbur A. Wright, and three granddaughters, all of Corsicana.

The body, accompanied by the family, will arrive in Corsicana over the Burlington-Rock Island Lines at 9:30 a. m. Friday.

Sutherland-McCammon Funeral Home is in charge of arrangements.

Gold assets \$10,660,014,798.50.

Landon is Resting on Preparation for Starting Campaign

ESTES PARK, Colo., Aug. 13.—(P)—G. M. Landon, determined to be in tip-top condition for his first presidential campaign tour starting in a week, relaxed today and visited with his family at their Colorado Rocky Mountain ranch.

Although the Republican nominee said he planned to do some fishing and horseback riding after "resting a day or two," his first few hours at nearby McGraw ranch, where the family has been spending the summer, were devoted to romps with his two small children.

Before starting his campaign expedition into the east August 20, the candidate said he expected to complete speeches he will deliver.

Reaching Denver from Topeka yesterday, Landon drove to Estes Park by way of Boulder, where he made two stops—one on the Colorado University campus and another in front of the courthouse—to wave at students and townsfolk who cheered him.

BEAUTY CHATS

All requests for beauty information desired by Edna Kent Forbes' column followers must be accompanied by a fully self-addressed, stamped envelope (a.s.e.) and two cents in stamps to cover cost of printing and handling. For the illustrated pamphlet, "BEAUTY," ten cents in stamps with fully a.s.e. must be enclosed. Address Miss Forbes in care of this paper.

YOUR TOES

HOW ABOUT YOUR TOES?

Miss Forbes today gives you complete directions for making your toenails as neat and nice looking as your finger-nails.

If you have goodlooking toes, you are most unusual in this modern day. Indeed, if you have comfortable toes you are one woman in a hundred thousand. And yet you can have both and even manage this all by yourself if you will have a little patience. Let me suggest, first, that you go to the best chiropodist you can find, preferably a woman, because she will have more insight in making the toes look nice than a man chiropodist. Tell her you want the toes made to look well in addition to the regular pedicure treatment, and watch what she does so you can imitate it later. The way you get at it, you proceed as follows. You first soak your toes in hot, soapy water for a few minutes, and you soak one foot while you work on the other one. You use a regular cuticle softener all around the nails, then you scrape off all dead cuticle that surrounds each nail and all the cuticle and hard white matter which collects underneath. For this you want a steel blade nail file and an orange wood stick with a flat end. This should have a wisp of cotton wrapped around it and should be kept wet with cuticle softener to work under the toenails.

E. K. Forbes

You must get out every bit of foreign matter, a job which will take you the best part of half an hour if your nails have been neglected. Then you can cut them short and file down any calloused places on the toes. You can oil them also to smooth the cuticle where it has been cut. If the side of the big toe-nail turns under, insert a wisp of cotton beneath it to raise up out to the flesh, put a drop of oil on the cotton, which will then absorb it and take the oil right under the toe-nail.

Go over the surface of the nails with a regular scraper or with the sharp edge of the nail file, so as to give each nail a smooth, clear surface.

B. Y. M.—The only thing you can do at present is to build up firmness all over the body and the bust will share in it. As you are just at the period of making changes, in no time at all you may find that all the lines of your figure have slimmed down, or otherwise conformed to your development. Often, girls develop rapidly as you have. In six months, no notice will be taken of it as there will have been the rounding out of other portions, and a slimming down all over, as all parts are in proportion. It may be a bit trying to have to pass through such periods, but they are temporary, and every one understands that. Please do not let this spoil your outings this summer. Of course, wear a smart looking bathing suit and gain all the pleasure possible, from your swimming. That, too, will help slim down the lines of your figure.

E. V.—There are any number of blemish covering creams to be bought, or you may cover these defects by using grease paint liberally on them yourself, and follow with whatever make-up you are in the habit of using. You should select the shade nearest to that of your skin.

S. N.—About one to ten hairs would be what might recover after you had the electric rays used, but a second treatment would finish them, since they had already been weakened.

Four Thousand Villages Covered By India Floods

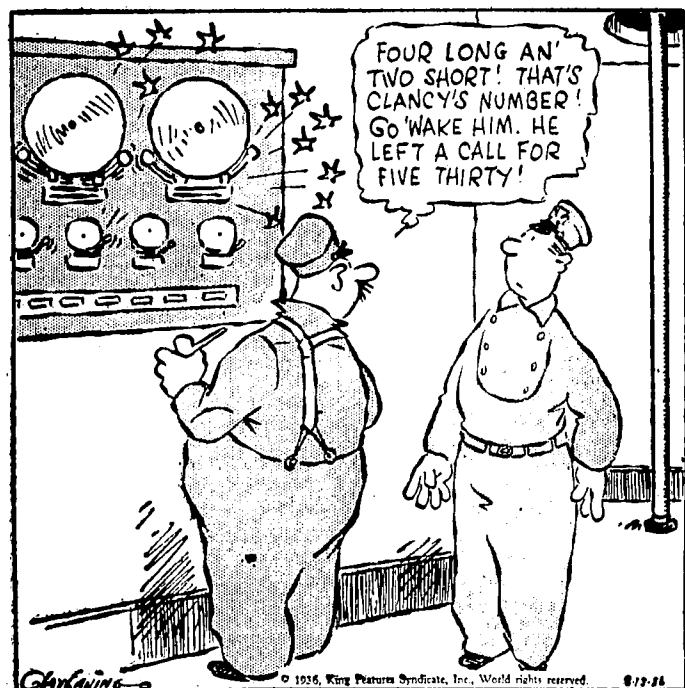

BOMBAY, Aug. 12.—(P)—Four thousand villages were submerged by raging floods today which ruined 20,000 homes.

The torrents struck approximately one-third of India while another third of the country was offering prayers and sacrifices for relief from drought and famine.

The floods destroyed roads and crops as dams burst. Authorities opened refugee camps in the United central provinces and at other points.

PRIZE WINNERS IN NAVARRO COUNTY'S ANNUAL FREE FAIR

LONG LIST OF AWARDS ANNOUNCED; MANY ENTERTAINING FEATURES

NEW YORK, Aug. 13.—(P)—Prize winners in the second annual Navarro County Free Fair, sponsored by the Johnson-Wiggins Post No. 22, American Legion drum and bugle corps, were announced today by officials of the fair. The fair opened Tuesday afternoon at 4 o'clock and will continue through Saturday night. It is located on the old circus grounds on South Ninth street.

A variety of entertainment features have been provided and are planned for each night during the remainder of the engagement. Following are the lists of prize winners as announced today by fair officials:

Where only two entries were received in any division second place prize was given the better of the two, and a ribbon was given to the other entry.

Four H Club Boys
Yellow Dent Corn—First, Joe McDonald; second, Edwin Bancroft; and third, Elliot Beale.

White Dent Corn—Blue ribbon, Morris Holloway; red ribbon, Edwin Bancroft.

Red Top Cane—First, Morris Holloway; second, Walter Poe, and third, Glenn Hutchins.

Pop Corn—Blue ribbon, W. A. McCullough; red ribbon, Walter Poe.

Onions—Blue ribbon, Morris Holloway; and red ribbon, Glenn Hutchins.

Adult Department
White Dent Corn—First, J. R. Bowden; second, Arline Hollingsworth.

Yellow Dent Corn—First, T. A. Boyd; second, Mrs. H. F. Thompson; third, F. C. Conant.

Straw Popcorn—Blue ribbon, R. L. Ellis.

Cotton—First, Perry McCullough; second, J. A. Brethaupt; third, Glenn Hutchins.

Peas—Blue ribbon, B. W. Ellis.

Red Popcorn—First, Mrs. H. S. Thompson; second, U. M. Archer; third, S. H. Norwood.

White Popcorn—First, F. P. McCullough; second, W. M. Archer; third, S. H. Norwood.

Dried Beans and Peas—One gallon whip-o-will, blue ribbon, W. H. McCullough; red ribbon, R. L. Ellis.

One gallon cream peas—First, F. P. McCullough; second, Mrs. Gus Hutchins; and third, Miss Cora Roberts.

One gallon black-eyed peas—First, F. P. McCullough; second, Mrs. Gus Hutchins; third, Mrs. D. E. Brann.

One gallon dried beans—First, Andrew Wright; second, Mrs. Glen Hutchins; third, Mrs. O. C. Goodwin.

Sheaf grains and seeds—Wheat, blue ribbon, F. P. McCullough; red ribbon, F. C. Conant.

Six tomatoes, blue ribbon, F. C. Conant.

Irish potatoes—Blue ribbon, W. H. Wright.

Onions—First, C. H. McCarter; second, Mrs. L. L. Ward; and third, Mrs. Melvyn Owen.

Six squash—Blue ribbon, F. C. Conant; red ribbon, Mrs. L. L. Ward.

Three cantaloupes—Blue ribbon, F. C. Conant; red ribbon, F. C. Conant.

Watermelon—Blue ribbon, F. C. Conant.

Okra—First, Mrs. F. P. McCullough; second, Mrs. Mable Walker; third, Miss Cora Roberts.

Cucumber—Blue ribbon, F. C. Conant.

Cushaw—Blue ribbon, Mrs. W. H. Dobbins; red ribbon, Claud Steele.

Pumpkins—(honorable mention)—First, F. Brown; second, R. L. Ellis; third, D. F. Brown.

Grain sorghum, best 10 heads—10 heads maize, first, C. H. McCarter; second, Mrs. Melvyn Owen, Jr.; third, Thomas Bancroft.

10 heads heggari—Blue ribbon, Andrew Wright; red ribbon, F. C. Conant.

Ten heads Darso—(honorable mention)—Blue ribbon, Arthur Poe.

Paper shell pecans—Blue ribbon, Walter Hays; red ribbon, Walter Hays; Mahan variety.

Native pecans—Blue ribbon, O. C. Goodwin.

Feas—Blue sample, blue ribbon, Mrs. Mable Walker; red ribbon, Wylie Merrell.

Best dozen eggs—(honorable mention)—Blue ribbon, F. P. McCullough.

Women's Department
Strawberry preserves—First, Mrs. H. G. Gorrod; second, Mrs. E. C. Griffin.

Blackberry preserves—First, Mrs. Melvyn Owen, Jr.; second, Mrs. O. C. Goodwin; third, Mrs. W. M. Taylor.

Plum preserves—First, Mrs. E. M. Holloway; second, Mrs. W. N. Sloan; third, Mrs. O. C. Goodwin.

Peach preserves—First, Mrs. C. George; second, Mrs. Claud Steele; third, Mrs. W. N. Taylor.

Watermelon rind preserves—First, Mrs. R. L. Harris; second, Mrs. W. M. Taylor.

Apple preserves—First, Mrs. O. C. Goodwin; second, Mrs. Mable Walker; third, Mrs. Emma Trammell.

Blackberry jelly—First, Mrs. O. C. Goodwin; second, Mrs. R. L. Harris; third, Mrs. C. George.

Plum jelly—First, Mrs. O. C. Goodwin; second, Mrs. A. B. Walker; and third, Mrs. C. George.

DUTCH-CHINESE GIRL HELD BY FEDERAL AGENTS NEW YORK

NEW YORK, Aug. 13.—(P)—Arrested as she was about to board the liner Deutschland, Maria Wendt, Dutch-Chinese girl sought in connection with an investigation of a west coast narcotic ring, was held here today by federal agents.

Her arrest as she was walking up the gangplank of the liner last night ended a countrywide hunt for the girl who has been indicted in Los Angeles on charges of smuggling narcotics into the country.

She vanished from her Los Angeles hotel room Friday after federal agents had taken her in custody and since that time every seaport in the country had been watched.

WASHINGTON, Aug. 13.—(P)—Customs authorities said today they were preparing to return Maria Wendt, to Los Angeles from New York where she was arrested Wednesday night after escaping from authorities in the California city. Officials here were advised she had waived extradition and would be taken to Los Angeles by airplane.

She is accused of smuggling narcotics.

Wanted
WANTED—Cordwain cutters, \$1 per cord. East 12th, Richmond, Texas.

Wanted
WANTED TO RENT from 150 to 200 acres of land, will furnish seed and give best of references; also have 121 acres of land at New Raleigh, will sell or trade, J. S. Parker, Route 2, Corsicana, Texas, R. 1.

Wanted
WANTED—1 or 2 team crop, third and fourth, and can give plenty of references and finance myself, J. W. Ray, Chatfield, Texas, R. 1.

Wanted
To build your truck bodies and trailers—and do your blacksmithing and general repairs. H. F. Gordon and L. C. Jones. Located in the old street car barn on west 7th Avenue.

CURRENT HOT WAVE DEFINITELY WORST IN TWENTY YEARS

NO PROMISE OF RELIEF
FROM SEARING SUN AS
CROPS WITHERED

By The Associated Press.
A greater part of Texas continued today to swelter under temperatures of 100 degrees or more as thermometers climbed towards yesterday's record-breaking readings.

Another death, that of P. A. Polineck, 50, of Waco, was reported, bringing to five the total attributed to the intense heat.

Farmers, whose crops, as a rule, were in fair condition, were the most concerned, fearful that a continuation of the present heat wave for any length of time would destroy their plants.

Reports from many sections gave the following readings, most of them around noon:

Waco 100; Pampa 102; Brownsville 97; Corsicana 104; Sherman 105; Houston 92; San Antonio 97; Fort Worth 102; Lubbock 97; Longview 98; Abilene 100; Amarillo 96.

County Agent J. C. Patterson at Waco said the hot weather was an aid in the fight on cotton insects but was seriously hurting cotton and feed crops in about one-third of McLennan county. The rest of the county, he said, has had an adequate amount of rain.

Row crops were withering in the Pampa area and rain will be needed within a week to save them, County Agent Ralph Thomas said. At Lubbock feed crops were withering but the condition of cotton still was generally good.

County Agent R. F. McSwain at Longview said cotton, peas and sweet potato crops had been damaged seriously by the hot and dry weather of the past ten days.

A mild gulf storm was reported 200 miles east of Brownsville. The tide at Brownsville was slightly above normal.

Mercuries mounted toward record-breaking high temperatures today in Texas definitely establishing the current heat wave as the worst of the last twenty years.

Weather observers gave no promise of relief from the parching sun. Farmers in most sections looked fearfully at pale blue heat-ridden skies and wondered how long crops could stand the heat.

Chief danger, county agents said, was not heat itself but tendency of scorching winds and blazing sunshine to dry land and wither crops just at maturity.

Four deaths were blamed on the heat yesterday and numerous prostrations reported. McKinney Collin county, reported the state's official mark—118 degrees.

Cotton about Wichita Damaged. Wichita county farmers said cotton on dry lands was seriously damaged by heat and drought, but in irrigated sections the crop was flourishing. Stockmen said ranges were suffering and they would be forced to begin feeding if rain did not fall within a few days.

At Corsicana farmers reported no damage. The San Antonio area was likewise unaffected. County Agent B. P. Gray at Sherman said he believed one-third of the cotton would not mature and late grains were ruined. Other areas reported deterioration, but conditions not as yet critical.

Heat broke all-time records yesterday at Paris, thermometers going to 115. W. B. Morris said cotton on thin land, feed, truck gardens and pastures were damaged.

San Antonio had a maximum of 103.6. And Austin the hottest night of the summer after a 104-degree day. Agricultural experts said heat was killing cotton worms.

New Record at Abilene. Temperatures in Abilene shot to 106, highest August reading in history. Agent Knox Fair said there was no doubt of serious crop damage, though rain flurries came late yesterday.

Citizens of Vernon sweltered in 112-degree heat. At Sherman the mercury soared to 113, four degrees above the highest mark ever registered.

The weather bureau at Corpus

Christi reported a small tropical disturbance of light intensity 100 miles south of Brownsville and moving toward the Mexican coast. The disturbance yesterday hovered off the Texas coast.

Ten cities reported new highs and scores of others said temperatures equalled their all-time marks. Texarkana reported the second highest temperature in the state, 117 degrees. Other marks were: Graham, 115; Greenville 114; Longview and Kilgore 113; Van Alstyne 112; Wichita Falls 111; Fort Worth 109; Dallas 109; Temple 109; Corsicana 110 and Waco 105.

Fort Worth-Dallas Hot. Fort Worth's burning heat was the highest in 29 years and Dallas set a record.

Wallace Lamar, 61, died of prostration near Crawford, Ky. Kennard, 24-year old negro janitor, died in a Fort Worth office building. Earl Marcus Barnes, 69, perished from heart trouble as he tried to revive his wife, who collapsed from the heat. A Dallas negro died from the heat.

Heat-induced weather disturbances poked the area. Stiff winds toppled derricks at Glade-water and buildings under construction were damaged by rains. A light wind and rain temporarily eased 100-degree heat at DeLeon.

Citizens Warned.

DALLAS, Aug. 11.—(P)—Dr. J. W. Bass, city health officer, warned citizens here to avoid strenuous effort during this, the second day of record-breaking heat.

"Heat sickness is cumulative," Dr. Bass said. "One day of terrific heat throws the system out of order. The second day is likely to produce prostration. Only after several days does the body become inured to the condition."

Deep South Still Ridden By Heat

(By The Associated Press)
The deep South felt scant relief today from sweltering temperatures, blustery winds that caused property damage in scattered sections, thunderstorms and a roving tropical disturbance in the Gulf of Mexico.

The New Orleans weather bureau, in its latest advisory, said the disturbance was about 200 miles east-southeast of Corpus Christi, Texas, apparently curving southward, but was only moderate in intensity.

Citizens of Tupelo, Miss., where a tornado killed more than 200 persons earlier this year, were frightened by stiff winds which caused property damage of several thousand dollars. Winds also caused damage in the vicinity of Laurel, Miss. No injuries were reported in Mississippi.

Cream Supper

There will be a nice cream supper at Roane Methodist church Friday night, Aug. 21, benefit of the church. All candidates invited to attend. Everyone welcome.

MERCURY EQUALLED ALL-TIME HIGH IN CORSICANA MONDAY

OFFICIAL READING OF 110
RECORDED; STARTED
OTHER CLIMB TUESDAY

The government thermometer registered 110 Monday, equalling the all-time high record here and surpassing the modern day record of 109 made on July 24, 1934. The previous high for this year was 107 made on Sunday, June 21.

Readings of 105, 106, 107 and 108 are frequent in the government records and on several occasions readings of over 100 were found for several days in succession. The record for excessive heat over a long period of time was made in the summer of 1934. An article carried in the Daily Sun on August 17, 1934, stated that for a period of 57 days prior to that date the readings had ranged from 100 to 109 with one exception and that was Sunday, August 12, with a reading of only 98. A further perusal of the records of the government readings showed readings of 100 or more for the next ten days, bringing the record to 67 days in succession. The 100 or more was registered with the single exception noted above.

This summer has been a comparatively cool one. Prior to the present heat wave the hot spells have been short. A hot blistering wind on Sunday, June 21, ran the temperature to 107. Readings of 104 and 103 were made on the following Monday and Tuesday then there was a decided drop to 94 for the maximum on Wednesday. Readings of 100 or more since that time have been infrequent and the nights have been exceptionally cool. The present hot spell started Tuesday of last week with a reading of 100 and has increased steadily in intensity since that time. A light shower Sunday afternoon brought temporary relief only.

After Another Record. Indication at noon were that all records would be broken Tuesday if the rapid rise in temperature of the morning was maintained throughout the day. The reading at 8 o'clock on the thermometer at the Daily Sun office was 94, two degrees higher than the same hour Monday and this difference was maintained all morning. The reading at 11 o'clock Tuesday morning was 104 and at the same hour Monday it was 102. The 12 o'clock reading today was 105 and the Monday noon reading was 102.

A hot north wind, a reminder of the record breaker earlier in the season, started blowing before noon and was growing hotter as the day progressed. The hot wind added to the discomfort of the already dry, torrid weather. If the hot winds continue long heavy damage will result.

Cotton is standing up well under the heat which serves to prevent damage from insects of any kind.

Farmers are busy harvesting other crops including hay, row feed, sorghum and other grains of like nature.

Cotton is beginning to open and

Former Ambassador Named Defendant In Color Film Suits

NEW YORK, Aug. 13.—(P)—James W. Gerard, former ambassador to Germany, is named as one of the defendants in a suit filed in U. S. District Court today by Mrs. Emi Kiant and her daughter, Ada, German citizens, for an injunction restraining the use of a color film invention.

Named with Gerard is the American Natural Color Films, Inc., of which the former envoy is said in the complaint to be a director and stockholder.

The complaint charges that American Natural Color Films, Inc., was organized to take over a German invention for natural color photography after Mrs. Kiant and her daughter had made a prior agreement to promote it in this country.

There is no allegation that Gerard, who is said to have invested \$25,000 in the film company, had any knowledge of the plaintiff's interest in the invention.

picking will soon be well under way.

Using Much Water.

Water pumpage at the city plant at Lake Halbert reflected the increased temperatures Monday when the records revealed that the daily gallonage total was slightly over one and three-quarter million gallons, about a quarter of a million under the previous high record established earlier this year. Monday's pumpage was an average of 117 gallons for each resident of the city.

City officials reported that it was necessary to use two pumps to maintain an adequate water supply for the citizenry.

No prostrations had been reported in Corsicana up to noon Tuesday but three narrow escapes were recounted.

Jim Drew, city mail carrier, was found to leave his run Monday afternoon by the intense heat but was reported able to return to work Tuesday morning.

Dan Morgan, city employee engaged at Lake Halbert, was partially overcome by the intense heat while working on the dam Monday afternoon but recovered after a few minutes rest. He was taken to his home and advised not to attempt to return to work Tuesday.

An unidentified man was reported to have been prostrated for a few minutes in the lobby of the Corsicana postoffice Tuesday morning but was quickly revived.

Ask Co-Operation. Members of the Corsicana Fire Department were on the alert Tuesday as the second day of intense heat covered Corsicana and vicinity and were prepared to make fast trips on every occasion. Officials stated that even a small grass fire could result in extensive damage under present conditions and could get beyond control of a householder with ease.

They asked the co-operation of every citizen in preventing possible loss and injury during the dry period.

Two grass fires in widely separated sections of the city caused runs Monday afternoon but no damage resulted. One was in the 1700 block on West Second avenue and the other in the 1000 block on East Sixth.

Two signboards in the 100 block on North Seventh street were slightly damaged by a grass fire at noon Tuesday.

HUMAN TEST TUBE FURNISHED PROGRAM CIVITAN LUNCHEON

EXERCISE AND DIET BIG FEATURES IN TREATMENT OF
VARIOUS DISEASES

To determine to what extent diseases may be cured by rigid diet and proper exercise, eight years ago the Vienna Institute of Medical Research sent 600 youths touring the world to be inoculated with native diseases and forbade treatment with medicine until cure by diet failed.

Today Frank Fielding of Los Angeles, Calif., one of the "human test tubes" was a visitor at the Civitan club's luncheon-meeting, and made an interesting talk, as well as entertaining the club members with some fancy skating and rope jumping, and a combination of each.

R. L. Nix and Claud White had charge of today's program, and President Robert Cason appointed Elbert Neely and Ed Wendorf as next week's committee. President Cason set Sept. 11 as charter membership day and homecoming day.

Nix introduced Billy Basham and Billy Canady, who entertained with several popular and colorful folk songs.

Fielding demonstrated some of the exercises he is required to take daily. He imitated the sound of trains by tapping with his skates and with a rhythmic combination of skating and rope jumping. His ability with either the

A. P. MAYS SUPPORTS WAYNE HOWELL FOR DISTRICT JUDGE

IN LETTER TO HOWELL
STATES REASONS FOR
SUPPORT

Wayne Howell, candidate for District Judge, received the following letter from A. P. Mays:

Mr. Wayne R. Howell, City.

Dear Wayne—There are deplorable conditions which exist in the administration of justice, criminal and civil, in this County, which require no elucidation.

To my mind, the election of a district judge to serve this district for the next four years is of vital importance to every citizen thereof.

Since my elimination from the race, I have had no hesitancy in expressing my support for you because I sincerely believe in your honesty and in your ability.

If I can be of any assistance to you, do not hesitate to call upon me and please feel at liberty to use my name whenever you feel it may be of assistance.

With best wishes, I am Sincerely your friend, (Signed) A. P. MAYS.

APM-RLT (Political Advertisement)

skates or rope was unquestioned. Fielding said he had 139 inoculations at various times, including leprosy, malaria, swamp fever, tuberculosis, and many others.

Most of the diseases, he said, were cured by diet, but in some instances medicine was resorted to, and in several cases other members participating in the experiment have died.

He started in 1928 and will complete the experiment in 1940. If he lives until that time, he said, he will collect his pro rata part of \$100,000 and then plans to "retire."

The "human guinea pigs" travel in small groups, and are accompanied by a doctor, who reports to the institute upon their condition weekly.

Sun Wants Ads bring results.

Card of Thanks. We wish to take this method of expressing our thanks and appreciation to the friends and neighbors who were so kind and good to help us when our house burned. Again we are thanking you and may God bless each and every one is our prayer.—Mr. and Mrs. L. C. Graves.

Card of Thanks. We wish to take this method of expressing our thanks and appreciation to the friends and neighbors who were so kind and good to help us when our house burned. Again we are thanking you and may God bless each and every one is our prayer.—Mr. and Mrs. L. C. Graves.

He started in 1928 and will complete the experiment in 1940. If he lives until that time, he said, he will collect his pro rata part of \$100,000 and then plans to "retire."
